**Lacan, Discourse, Event: New Psychoanalytic Approaches to Textual Indeterminacy** Ian Parker, David Pavón-Cuellar, 2013-10-30 Lacan Discourse Event New Psychoanalytic Approaches to Textual Indeterminacy is an introduction to the emerging field of Lacanian Discourse Analysis It includes key papers that lay the foundations for this research and worked examples from analysts working with a range of different texts The editors Ian Parker and David Pavón Cuellar begin with an introduction which reviews the key themes in discourse analysis and the problems faced by researchers

in that field of work including an overview of the development of discourse analysis in different disciplines psychology sociology cultural studies and political and social theory They also set out the conceptual and methodological principles of Lacan's work insofar as it applies to the field of discourse Ian Parker and David Pavón Cuñillar have divided the book into three main sections The first section comprises previously published papers some not yet available in English which set out the foundations for Lacanian Discourse Analysis The chapters establish the first lines of research and illustrate how Lacanian psychoanalysis is transformed into a distinctive approach to interpreting text when it is taken out of the clinical domain The second and third parts of the book comprise commissioned papers in which leading researchers from across the social sciences from the English speaking world and from continental Europe and Latin America show how Lacanian Discourse Analysis works in practice Lacan Discourse Event New Psychoanalytic Approaches to Textual Indeterminacy is intended to be a definitive volume bringing together writing from the leaders in the field of Lacanian Discourse Analysis working in the English speaking world and in countries where Lacanian psychoanalysis is part of mainstream clinical practice and social theory It will be of particular interest to psychoanalysts of different traditions to post graduate and undergraduate researchers in psycho social studies cultural studies sociology and social anthropology

**Lacan on Society** Edgar Miguel Juárez-Salazar, 2025-08-13 Lacan on Society is an exhaustive archeological and contingent review of Lacan's approaches to society throughout his work seminars and crits Through a systematic and chronological analysis of Lacan's work Edgar Miguel Juárez Salazar highlights critical structural and divergent surfaces as they emerge within the concept of society The book explores diverse manifestations of society to conjugate social and structural phenomena such as ideals the metamorphoses of social enjoyment the structural demand to produce social order and the political economy of the signifier and its abstract circulation Juárez Salazar's work evaluates Lacan's critique of the notion of the family complexes the relation between society and social modes of enjoyment and the homology between Marx and Lacan concluding with an invitation to subvert the understanding of society and its diatribes Lacan on Society will be of great interest to academics and scholars of psychoanalysis critical theory and Lacanian studies It will also be relevant to academics and scholars of political economy cybernetics post Marxist thought gender studies and sociology

**Infinite Greed** Adrian Johnston, 2024-05-14 Selfishness is essential to capitalism or so both advocates and opponents claim In Infinite Greed Adrian Johnston argues that this consensus is mistaken Through a novel synthesis of Marxism and psychoanalysis he reveals how the relentless pursuit of profits is not fundamentally animated by human acquisitiveness Instead capitalism's strange infinite greed demands that individuals sacrifice their pleasures their well being and even themselves to serve inhuman capital Johnston traces the mechanisms that compel capitalist subjects to obey the cold imperative to accumulate in perpetuity and without limits and also without regard for the consequences for everyone and everything else Facing crises such as spiraling wealth inequality and the profit driven prospect of a looming ecological apocalypse the rational self interest of the majority would seem to

dictate putting a stop to capitalist accumulation By bringing together the Marxian critique of political economy with psychoanalytic metapsychology Johnston shows why and how capitalism rather than being responsive to people's rationally selfish interests disregards and overrides them instead Unlike previous syntheses of Marxism and psychoanalysis Infinite Greed pairs Freudian and Lacanian concepts with the economic heart of Marx's historical materialism In so doing Johnston brings to light the complex intertwining of political and libidinal economies keeping us invested and complicit in perpetuating capitalism and its ills

**Political Jouissance** Slavoj Žižek, Nicol A. Barria-Asenjo, 2024-08-22 When we oppose or disagree with something important do we ever really do it dispassionately Isn't setting the world to rights or condemning a political opponent always done with a hint of relish or at least enthusiasm This book's challenging essays explore the modes in which that transgressive pleasure of political jouissance operates Rather than delegitimizing or depoliticising the tacit enjoyment of outrage can in fact facilitate different forms of engagement The tendency for groups to be bonded by a common enemy for example brings with it a protection from censure or persecution and a way of alleviating guilt In this collection the authors seek out jouissance in the battle against patriarchy in social revolts in the age of mechanical surveillance in the necrosociety of neoliberalism or the proliferation of conspiracy theories Drawing on Lacan's insistence that jouissance is intrinsically political by its nature we can understand how readily psychoanalytic ideas can be put to use across the geopolitical spectrum

**Architecture or Revolution** Nadir Lahiji, 2020-09-22 By linking building theory to the emancipatory project of critique advanced by radical thinkers in our time this work investigates the key conceptual and historical elements that culminate in an emancipatory theory of building entitled Toward a philosophy of shelter Taking Marx as its only resource this work proceeds with the conviction that our era is contemporaneous to Marx's historical era This means not judging the validity of Marx from the perspective of the historical situation but rather demonstrating the validity of a Marxian perspective for a singular historical situation as ours This work will therefore translate this perspective into seeing the situation of architecture through the eyes of Marx All those concerned with the predicament in our current condition in which architecture must play a major social role in upholding the universal value of what Alain Badiou calls generic humanity will take an interest in this work In particular architects critics scholars and students inside the field of architecture who would be seeking the application of this universal value to a new theory of building will be a welcoming audience for this work

*Georges Politzer, le concret et sa signification* Giuseppe Bianco, 2016 Figure incontournable de la psychologie et de la philosophie du XXe siècle Georges Politzer 1903-1942 fut l'un des premiers philosophes français à s'engager au Parti communiste et plus tard dans la Résistance Il fut notamment l'auteur d'une Critique des fondements de la psychologie qui détermina les modalités de la réception de la psychanalyse en France et d'un corrosif pamphlet contre Henri Bergson dont l'importance est comparable aux Chiens de garde de l'ami Nizan L'anthropologie philosophique élaborée par Politzer située à la convergence du marxisme et de la psychanalyse influença profondément les œuvres de Lacan Merleau-Ponty Sartre

Canguilhem Ricoeur et Althusser Ce volume rassemble des études visant à restituer l'originalité et la complexité de l'œuvre de Politzer par-delà des usages qui ont été faits d'elle et par-delà des critiques faciles qui lui ont été adressées Avec une lettre inédite de Georges Politzer à Leon Brunschvig

Lacan and Marx Pierre Bruno, 2019-08-13 Lacan and Marx The Invention of the Symptom provides an incisive commentary on Lacan's reading of Marx mapping the relations between these two vastly influential thinkers Unlike previous books Bruno provides a detailed history of Lacan's reading of Marx and surveys his references to Marx in both his writings and seminars Examining Lacan's key argument that Marx invented the symptom Bruno shows how Lacan went on to criticize Marx and contrasts Marx's concept of surplus value with Lacan's surplus enjoyment Exploring the division between Marxist and psychoanalytic perspectives on social and psychological need and Lacan's formalisation of the capitalist discourse the book compares the positions of Althusser Deleuze and Guattari and links them on the relations between Lacan Marx and capitalism using a wide range of cultural examples from Stevenson's Dr Jekyll and Mr Hyde to Brecht's Joan Dark and Pierpont Mauler Through these readings Bruno also elaborates an extended commentary on Lacan's central idea of the division of the subject His focus is not only on showing how we can exit from capitalism but also and just as importantly on showing how we can make capitalism exit from us This book will be of great interest to scholars and readers of Lacan and Marx from across the fields of psychoanalysis philosophy and political economy and will also appeal to Lacanian psychoanalysts in clinical practice
