Airport Apron Management and Control Programs, 2012 TRB s Airport Cooperative Research Program ACRP Report 62 Airport Apron Management and Control Programs explores the effectiveness of apron management programs around the world

Handbook of Research on Key Dimensions of Occupational Safety and Health Protection Management Živković, Snežana, Krstić, Bojan, Rađenović, Tamara, 2021-12-10 Much remains to be known about occupational safety and health occupational diseases legislation practices and cases worldwide as well as the implications for sustainable development in different countries in pandemic crisis conditions Thus a better understanding of the different safety and health management developments across different contexts to assess their impact on sustainability is needed The Handbook of Research on Key Dimensions of Occupational Safety and Health Protection Management discusses the necessity to protect the workforce and the importance of occupational safety and health management This book will encourage organizations to create a preventative safety and health culture Covering topics such as economic development employment injury insurance and personnel security this book is an excellent resource for managers of public and private organizations executives professionals researchers policymakers human resource managers government authorities professionals students and academicians

Ramp Safety Practices Joanne Landry, Shane Ingolia, 2011 At head of title Airport Cooperative Research Program

The Economic Effects of Air Transport Market Liberalisation Eyden Samunderu, 2024-09-19 This book rigorously examines the air transport market liberalisation process on the African continent and presents key highlights challenges and impediments to embracing an open skies market environment in Africa It focuses on the economic impact of air transport liberalisation policy constraints challenges of harmonisation and regional economic integration and its impact on air transport development employing a quantitative assessment based on the Air Transport Liberalisation Index ALI to evaluate how an open skies policy would change the competitive dynamics of air transport in Africa Adopting a two tier gravity model the book explores how demand and route networks would be impacted by the deregulation of the air transport market The book also applies a historical perspective by evaluating the initial ratification of the Yamoussoukro Declaration 1999 which acted as a catalyst for Africa s 2063 regional agenda focused on establishing the Single African Air Transport Market SAATM The book also provides a comprehensive analysis of the African Continental Free Trade Area AfCFTA exploring its multifaceted impacts on Africa s single market from economic regulatory and sustainability perspectives This includes an introduction to the AfCFTA highlighting its inception as a major step towards continental economic integration aimed at enhancing intra African trade promoting sustainable development and fostering industrial diversification It then examines the capacity and competency building of African aviation personnel Training gaps and skills are extensively evaluated to ensure that the African region is prepared for the new competitive equilibrium post SAATM The book also raises critical questions regarding the status of the African air transport market Firstly with the introduction of an open skies policy

in Africa will the national flag carriers be able to compete under the new market dynamics Will the SAATM become a game changer in paving the way for the privatisation of some of Africa s poor performing airlines Will the SAATM create a competitive market and a shift in airfares How will policymakers deal with the excessive aviation taxes fees and charges that make airfares in Africa the highest in the world What will the economic benefits be for signatory states that embrace the SAATM Will there be a significant growth trajectory in terms of air travel demand This book is intended for researchers studying air transport economics in developing markets graduate students with a primary focus on air transport development senior policymakers and professionals at governmental agencies and industry practitioners who want to expand their understanding of the dynamics shaping Africa s air transport landscape

Air Cargo Management Michael Sales,2016-12-16 *Air Cargo Management* provides a comprehensive and lively overview of the air cargo industry which is both economically and strategically important in the field of logistics world trade and supply chain management This new edition builds on the success of the previous edition focusing on the role of air freight in the global supply chain including areas such as the main players in the industry regulations and restrictions and terrorism management Updates to this edition include the role of E Commerce and its changing influence on the industry a new chapter on crime security and terrorism updated case studies and new contributors providing professional insight from the industry Enriched throughout with international case studies and contributions from industry experts *Air Cargo Management* provides a practical approach It is the perfect companion for undergraduate students studying air logistics transportation logistics air cargo and supply chain management Professionals and managers in the field will also find Sales easy style and industry insights useful and applicable to their practice
