Shi'i conceptions of statecraft notions of public duty and the compatibility of Islam and democratic governance **Islam And Democracy** Fatima Mernissi, 2009-03-05 Is Islam compatible with democracy Must fundamentalism win out in the Middle East or will democracy ever be possible In this now classic book Islamic sociologist Fatima Mernissi explores the ways in which progressive Muslims defenders of democracy feminists and others trying to resist fundamentalism must use the same sacred texts as Muslims who use them for violent ends to prove different views Updated with a new introduction by the author written in the wake of the September 11 terrorist attacks on the United States *Islam and Democracy* serves as a guide to the players moving the pieces on the rather grim Muslim chessboard It shines new light on the people behind today's terrorist acts and raises provocative questions about the possibilities for democracy and human rights in the Islamic world Essential reading for anyone interested in the politics of the Middle East today *Islam and Democracy* is as timely now as it was upon its initial celebrated publication **In the Path of God** Daniel Pipes, 2017-09-08 Americans awareness of Islam and Muslims rose to seemingly unprecedented heights in the immediate aftermath of September 11 2001 but this is not the first time they have dominated American public life Once before during the period of the Iranian revolution and hostage crisis of 1979 to 1981 Americans found themselves targeted as a consequence of a militant interpretation of Islam Daniel Pipes wrote *In the Path of God* in response to those events and the heightened interest in Islam they generated His objective was to present an overview of the connection between Islam and political power through history in a way that would explain the origins of hostility to Americans and the West Its relevance to our understanding of contemporary events is self evident Muslim antagonism toward the West is deeply rooted in historical experience In premodern times the Islamic world enjoyed great success being on the whole more powerful and wealthier than their neighbors About two hundred years ago a crisis developed as Muslims became aware of the West's overwhelming force and economic might While they might have found these elements attractive Muslims found European culture largely alien and distasteful The resulting resistance to Westernization by Muslims has deep roots has been more persistent than that of other peoples and goes far to explain the deep Muslim reluctance to accept modern ways In short Muslims saw what the West had and wanted it too but they rejected the methods necessary to achieve this This the Muslim trauma has only worsened over the years
