## SECTION 1 BEFORE USE

### Preparing the ENGINE UNIT

The engine operating booklet supplied with your Merry Tiller gives full details of pre run and starting procedure. Please refer to this booklet.

Remember that on a new Merry Tiller there is no oil in the engine sump nor in the chaincase.

The engine unit is a four stroke petrol engine and NO OIL should be put in the petrol tank.

### Preparing the MERRY TILLER

The transmission chaincase should receive 1 pint of S.A.E. 30 oil or oil as specified for the engine.

**To Fill:** Pull out the oil filler plug. Lean the machine onto its left side and pour in the oil. Replace the plug.

As the chaincase has no high speed moving parts there is no possibility of oil escaping in the form of spray, and unless the oil leaks from the case then the level of oil in the case will remain constant. It is, however, advisable to change the oil in the chaincase periodically but not as regularly as the oil in the engine.

## SECTION 2 USE

**To Start the Engine:** Refer to the Engine Booklet.

### IMPORTANT

Ensure clutch is in released position before attempting to start the engine.

- (1) Pull out choke "A" on carburettor. (See illustration overleaf).
- (2) Push throttle lever into fast running position marked "F".
- (3) Pull the starter cord evenly and without jerking.

Allow the cord to return steadily avoiding "springing back" which can damage the starter mechanism.
