The Financial Services Professional's Guide to the State of the Art Stephan R. Leimberg, 1989 **Solving Principles of Accounting Problems Using Excel for Windows** , 2005 This text helps students hit the road with a practical set of tools and the confidence they need to use those tools effectively in making business decisions The goal is to introduce a new Principles of Accounting text that better reflects a more conceptual and decision making approach to the material The authors have taken a new macro to micro approach to the Principles of Accounting course by starting with a discussion of real financial statements first rather than starting with the Accounting Cycle although

the Accounting Cycle is thoroughly covered in Chapters 3 and 4 The objective is to establish how a financial statement communicates the financing investing and operating activities of a business to users of accounting information They motivate students by grounding the discussion in the real world showing them the relevance of the topics covered to their future career The Tools and Techniques of Financial Planning Stephan R.
