Mentoring 1discussion Guide By Chapter:

Making Mentoring Work Emily Davis, 2014-08-13 *Making Mentoring Work* is a practical guide for school leaders interested in beginning or enhancing their mentoring programs for new teachers. Readers can use the mentoring program rubric to pre-assess their program and then choose the chapters that correspond to areas of growth. Each chapter provides background research as well as practical steps and tools to make mentoring work in a school environment. At the end of each section, readers will find discussion guides that support program leaders in making the next steps: organizing conversations with stakeholders that will transform and streamline new teacher support programs and increase new teacher retention and practice.

Supporting Beginning Teachers Tina H. Boogren, 2012-11-23 Give new teachers the time and professional guidance they need to become expert teachers. Investigate key research and examine the four types of support: physical, emotional, instructional, and institutional that are crucial during a teacher's first year in the classroom. Discover essential strategies for K-12 mentors, coaches, and school leaders to develop an effective mentoring program schoolwide.

Muchinsky's text is renowned for its balanced blend of science and practice based on the most current knowledge in the field, citing more than 800 references, the majority of which were published in the last five years. Case studies, field notes, and examples based on actual organizations illustrate and bring to life the relevance of I/O psychology to students' daily lives.
