MENA countries have unique characteristics and those involved in the Arab Spring have been affected in different ways This book provides up to date research into corporate governance disclosure in the context of Libya following the Arab Spring The banking sector plays a crucial role in the Libyan economy and has specific characteristics which make corporate governance more important than in other sectors yet research in this sector is rare Furthermore the banking sector in Libya has seen significant corporate governance reforms in recent years As one of the most significant oil producing countries Libya s political and business environments have been dramatically affected by the Arab Spring The author discusses how banks have responded to these reforms and the ways in which their corporate governance disclosure has evolved
