Medical Examiner Policy And Procedure:

National Guidelines for Death Investigation Stephen C. Clark, 1999-08 The sudden or unexplained death of an individual has a profound impact on families and friends of the deceased and places significant responsibility on the agencies tasked with determining the cause of death Responsibility for conducting death investigations may rest with pathologists medical examiners or coroners and there is little training available in the best procedures for handling these crucial and sensitive tasks These guidelines were developed to help fill this gap By adhering to these standards death investigators can arrive at the truth about a suspicious death and families and friends can know what happened to their loved one **National Guidelines for Death Investigation** ,1997 **Swickard v.
