Exam technique booklet

Overview: GCSE History Medicine: The British sector of the Western Front, 1914-18: injuries, treatments and the trenches; exam technique and model answers (qu. 1, 2a), 2b)

This section of the course will be assessed at the start of the exam paper.

Question 1:

The Describe Question (4 marks)

- Here you will be asked to describe the two features of an event or issue. You will be given a separate space to write both of your points.
- To gain all of the marks you must make 2 fully developed statements that describe the issue.
- **Structure:** 2 short paragraphs in the spaces provided – make the point; develop with evidence x2

Question 2 (a):

The two source 'How Useful' question (8 marks):

- Here you must explain how useful the sources are individually and together for an historian making an enquiry into the issue in the question.
- To do this you must consider the **usefulness of the information in the sources (i.e. source content)**. Pick out specific pieces of evidence from the source and show how these are useful for the historian in making an enquiry into the issue. Use your own knowledge to provide context.
- You should also consider the **context** of the source: how does it fit in with what you already know?
- You should also comment on the source's provenance: the **nature of the source/ its origin/purpose (N/O/P)**. For example, how representative and authoritative/reliable is it?
- The focus of your answer must be on what difference **the N/O/P** makes to what the source can contribute. Does it make it more or less useful? Use your own knowledge for context here. It is not enough to say it is reliable/unreliable/typical.
