Stepping Into the Dark David Lucas, 2010 This is the story of how one man came to accept his gradually deteriorating eyesight and eventual sight impairment despite his fear bitterness and rage At first David Lucas is terrified of being perceived as a blind man because he believes that society will see him negatively it ll just affect too much of his life He s outraged when a guide dog is first suggested to him but he is eventually persuaded to take one on and his life changes instantly Suddenly he comes out of the visually impaired closet in the most public of ways although his path is often strewn with obstacles of all kinds physical practical and psychological This is the story of how David and his guide dog in partnership overcame all that life threw at them so as to be able to step out into a new much brighter future The book includes useful information for people facing similar challenges All kinds of services and products are described and full contact details provided There is also a postscript which details research into new technologies and other signs of hope for the future The foreword by Bernard O Donoghue from Oxford University highlights just how special this book is It is inspirational not only for people directly suffering from any eyesight problems but also for their relatives and friends as well as for anybody who likes a shaggy dog story Actually the guide dog in question is rather sleek and well groomed David tells a refreshingly honest story of how life is for him which gives an insight into the lives of all visually impaired people His strength and sense of humour shine through on every page David s writing can be sometimes funny sometimes shocking and he shows no signs of being held back by political correctness It s easy to empathise with David s story as we all have to struggle with what life throws at us This book is informative educational funny and above all hard to put down
