Mediated Memories In The Digital Age:

Mediated Memories in the Digital Age José van Dijck, 2007 This book studies how our personal memory is transformed as a result of technological and cultural transformations digital photo cameras camcorders and multimedia computers inevitably change the way we remember and affect conventional forms of recollection

Mediated Memories in the Digital Age Jose van Dijck, 2022 Many people deploy photo media tools to document everyday events and rituals For generations we have stored memories in albums diaries and shoeboxes to retrieve at a later moment in life Autobiographical memory its tools and its objects are pressing concerns in most people s everyday lives and recent digital transformation cause many to reflect on the value and meaning of their own mediated memories Digital photo cameras camcorders and multimedia computers are rapidly replacing analogue equipment inevitably changing our everyday routines and conventional forms of recollection How will digital photographs lifelogs photoblogs webcams or playlists change our personal remembrance of things past And how will they affect our cultural memory The main focus of this study is the ways in which old and new media technologies shape acts of memory and individual remembrances This book spotlights familiar objects but addresses the larger issues of how technology penetrates our intimate routines and emotive processes how it affects the relationship between private and public memory and experience self and others

Memory in a Mediated World Andrea Hajek, Christine Lohmeier, Christian Pentzold, 2016-02-10 Considering both retrospective memories and the prospective employment of memories Memory in a Mediated World examines troubled times that demand resolution recovery and restoration Its contributions provide empirically grounded analyses of how media are employed by individuals and social groups to connect the past the present and the future

The Politics of Ephemeral Digital Media Sara Pesce, Paolo Noto, 2016-05-26 In the age of complex Tv of social networking and massive consumption of transmedia narratives a myriad short lived phenomena surround films and TV programs raising questions about the endurance of a fictional world and other mediatized discourse over a long arc of time The life of media products can change direction depending on the variability of paratextual materials and activities such as online commentaries and forums promos and trailers disposable merchandise and gadgets grassroots video production archives and gaming This book examines the tension between permanence and obsolescence in the production and experience of media byproducts analysing the affections and meanings they convey and uncovering the machineries of their persistence or disposal Paratexts which have long been considered only ancillary to a central text interfere instead with textual politics by influencing the viewers fidelity or infidelity to a product and affecting a fictional world s life expectancy Scholars in the fields of film studies media studies memory and cultural studies are here called to observe these byproducts temporalities their short form and or long temporal extention their nostalgic politics or future projections and assess their increasing influence on our use of the past and present on our temporal experience and consequently on our social and political self positioning through the media

Public Humanities and the Spanish Civil War Alison Ribeiro de

Menezes, Antonio Cazorla-Sánchez, Adrian Shubert, 2018-12-12 This interdisciplinary collection of essays examines contemporary public history's engagement with the Spanish Civil War. The chapters discuss the history and mission of the main institutional archives of the war, contemporary and forensic archaeology of the conflict, burial sites, the affordances of digital culture in the sphere of war memory, the teaching of the conflict in Spanish school curricula, and the place of war memory within human rights initiatives. Adopting a strongly comparative focus, the authors argue for greater public visibility and more nuanced discussion of the Civil War's legacy, positing a virtual museum as one means to foster dialogue.

Handbook of Culture and Memory Brady Wagoner, 2018 In the *Handbook of Culture and Memory*, Brady Wagoner and his team of international contributors explore how memory is deeply entwined with social relationships, stories in film and literature, group history, ritual practices, material artifacts, and a host of other cultural devices. Culture is seen as the medium through which people live and make meaning of their lives. In this book, analyses focus on the mutual constitution of people's memories and the social/cultural worlds to which they belong. The complex relationship between culture and memory is explored in the concept of memory and its relation to evolution, neurology, and history. Life course changes in memory from its development in childhood to its decline in old age and the national and transnational organization of collective memory and identity through narratives propagated in political discourse, the classroom, and the media. *Memory and Theory in Eastern*

Europe Uilleam Blacker, Alexander Etkind, 2013-09-11 It is the aim of this volume to investigate how academic practices of Memory Studies are being applied, adapted, and transformed in the countries of East Central Europe and the former Soviet Union. It affords a new, startlingly different perspective for scholars of both Eastern European history and Memory Studies.

Media and Memory in New Shanghai A. Lagerkvist, 2013-07-26 Contributing to current debates about the globality and mediatization of memories, *Media and Memory in New Shanghai* interrogates the city's spectacular regeneration into an emergent world centre, describing how Western elites partake in the production of New Shanghai by feeling its futures and performing its futures past.

The Routledge Companion to Remix Studies Eduardo Navas, Owen Gallagher, xtine burrough, 2014-11-27 The *Routledge Companion to Remix Studies* comprises contemporary texts by key authors and artists who are active in the emerging field of remix studies. As an organic international movement, remix culture originated in the popular music culture of the 1970s and has since grown into a rich cultural activity encompassing numerous forms of media. The act of recombining pre-existing material brings up pressing questions of authenticity, reception, authorship, copyright, and the techno-politics of media activism. This book approaches remix studies from various angles, including sections on history, aesthetics, ethics, politics, and practice, and presents theoretical chapters alongside case studies of remix projects. The *Routledge Companion to Remix Studies* is a valuable resource for both researchers and remix practitioners, as well as a teaching tool for instructors using remix practices in the classroom.

Digital Encounters Cecily Raynor, Rhian Lewis, 2023-03-30 To understand the creative fabric of digital networks, scholars of literary and cultural studies must turn

their attention to crowdsourced forms of production discussion and distribution Digital Encounters explores the influence of an increasingly networked world on contemporary Latin American cultural production Drawing on a spectrum of case studies the contributors to this volume examine literature art and political activism as they dialogue with programming languages social media platforms online publishing and geospatial metadata Implicit within these connections are questions of power privilege and stratification The book critically examines issues of inequitable access and data privacy technology s capacity to divide people from one another and the digital space as a site of racialized and gendered violence Through an expansive approach to the study of connectivity Digital Encounters illustrates how new connections between analog and digital human and machine print text and pixel alter representations of self Other and world **Camerawork** ,2007 **The Soviet and Post-Soviet Review** ,2011 *Choice* ,2008 **2010** Redaktion Osnabrück,2011-06-16 *Competing Voices from the Pacific War* Sean Brawley,Chris Dixon,Beatrice Trefalt,2009-07-23 Key decisions and events of the Pacific War are explored in this work by juxtaposing Allied and Japanese accounts giving voice to both sides in this epic confrontation *Competing Voices from the Pacific War Fighting Words* covers the period from July 1937 to September 1945 touching briefly on the post war Allied occupation of Japan Although it emphasizes American and Japanese accounts it also includes perspectives from other nations Materials covering political and strategic issues the experiences of combatants and prisoners of war the experiences of civilians caught up in the various war zones and the impact of the war on the various home fronts are also included By including a range of primary sources representing the experiences and views of participants and commentators of all sides and setting them in their historical contexts this unique anthology promotes an understanding of the Pacific War the events that led up to it and its legacies Alongside sources that reflect traditional military history material that considers the war from the perspective of the new military history is also included *Bibliographic Index* ,2008 **Mourning Sickness** Rebecca Comay,2011 This book explores Hegel s response to the French Revolutionary Terror in relation to contemporary theories of trauma The British National Bibliography Arthur James Wells,2009 □□□□□□ ,2015
