Medical Anthropology In Europe Shaping The Field:

Medical Anthropology in Europe Elisabeth Hsu, Caroline Potter, 2016-03-17 This collection brings together three generations of medical anthropologists working at European universities to reflect on past current and future directions of the field Medical anthropology emerged on an international playing ground and while other recently compiled anthologies emphasize North American developments this volume highlights substantial ethnographic and theoretical studies undertaken in Europe The first four chapters trace the beginnings of medical anthropology back into the two formative decades between the 1950s 1970s in Italy German speaking Europe the Netherlands France and the UK supported by four brief vignettes on current developments Three core themes that emerged within this field in Europe the practice of care the body politic and psycho sensorial dimensions of healing are first presented in synopsis and then separately discussed by three leading medical anthropologists Susan Whyte Giovanni Pizza and Ren Devisch complemented by the work of three early career researchers The chapters aim to highlight how very diverse and sometimes overlooked European developments within this rapidly growing field have been and continue to be This book will spur reflection on medical anthropology s potential for future scholarship and practice by students and established scholars alike This book was originally published as a special issue of *Anthropology and Medicine*

A Companion to Medical Anthropology Merrill Singer, Pamela I. Erickson, César E. Abadía-Barrero, 2022-02-23 The fully revised new edition of the defining reference work in the field of medical anthropology *A Companion to Medical Anthropology* Second Edition provides the most complete account of the key issues and debates in this dynamic rapidly growing field Bringing together contributions by leading international authorities in medical anthropology this comprehensive reference work presents critical assessments and interpretations of a wide range of topical themes including global and environmental health political violence and war poverty malnutrition substance abuse reproductive health and infectious diseases Throughout the text readers explore the global historical and political factors that continue to influence how health and illness are experienced and understood The second edition is fully updated to reflect current controversies and significant new developments in the anthropology of health and related fields More than twenty new and revised articles address research areas including war and health illicit drug abuse climate change and health colonialism and modern biomedicine activist led research syndemics ethnomedicines biocommunicability COVID 19 and many others Highlighting the impact medical anthropologists have on global health care policy and practice *A Companion to Medical Anthropology* Second Edition Features specially commissioned articles by medical anthropologists working in communities worldwide Discusses future trends and emerging research areas in the field Describes biocultural approaches to health and illness and research design and methods in applied medical anthropology Addresses topics including chronic diseases rising levels of inequality war and health migration and health nutritional health self medication and end of life care Part of the acclaimed Wiley Blackwell Companions to Anthropology series *A Companion to Medical Anthropology* Second

Edition remains an indispensable resource for medical anthropologists as well as an excellent textbook for courses in medical anthropology ethnomedicine global health care and medical policy Hope and Uncertainty in Health and Medicine

Bernhard Hadolt, Andrea Stöckl, 2024-05-06 In health and medicine imagining the future is essential in giving meaning to the past and the present and for propelling people into action This is true not only at the level of individuals as they envision and carry out everyday activities and long term plans but also for institutional practices framed by and unfolding within various socio political ecologies and transfigurations Hope and uncertainty are critical affective and knowledge related modalities of such imaginations and assume vital meanings in policing managing and experiencing health illness and well being This volume brings together contributions from medical anthropologists who address this theme across various medical spheres including the pragmatics of hope and uncertainty the techno sphere health management and individual and socially distributed emotions **Chinese Medicine in East Africa** Elisabeth Hsu, 2022-07-08 Based on fieldwork conducted

between 2001 2008 in urban East Africa this book explores who the patients practitioners and paraprofessionals doing Chinese medicine were in this early period of renewed China Africa relations Rather than taking recourse to the placebo effect the author explains through the spatialities and materialities of the medical procedures provided why apart from purchasing the Chinese antimalarial called Artemisinin locals would try out their alternatively modern formulas for treating a wide range of post colonial disorders and seek their sexual enhancement medicines **World Politics in Translation**

Tobias Berger, Alejandro Esguerra, 2017-09-14 Virtually all pertinent issues that the world faces today such as nuclear proliferation climate change the spread of infectious disease and economic globalization imply objects that move However surprisingly little is known about how the actual objects of world politics are constituted how they move and how they change while moving This book addresses these questions through the concept of translation the simultaneous processes of object constitution transportation and transformation Translations occur when specific forms of knowledge about the environment international human rights norms or water policies consolidate travel and change World Politics in Translation conceptualizes translation for International Relations by drawing on theoretical insights from Literary Studies Postcolonial Scholarship and Science and Technology Studies The individual chapters explore how the concept of translation opens new perspectives on development cooperation the diffusion of norms and organizational templates the performance in and of international organizations or the politics of international security governance This book constitutes an excellent resource for students and scholars in the fields of Politics International Relations Social Anthropology Development Studies and Sociology Combining empirically grounded case studies with methodological reflection and theoretical innovation the book provides a powerful and productive introduction to world politics in translation **Documents on Medical Anthropology**

(Untrodden Fields of Anthropology) Dr. Jacobus X (pseud.), 1972 **International Encyclopedia of Public Health**

William C Cockerham, 2016-10-06 International Encyclopedia of Public Health Second Edition Seven Volume Set is an

authoritative and comprehensive guide to the major issues challenges methods and approaches of global public health Taking a multidisciplinary approach this new edition combines complementary scientific fields of inquiry linking biomedical research with the social and life sciences to address the three major themes of public health research disease health processes and disciplines This book helps readers solve real world problems in global and local health through a multidisciplinary and comprehensive approach Covering all dimensions of the field from the details of specific diseases to the organization of social insurance agencies the articles included cover the fundamental research areas of health promotion economics and epidemiology as well as specific diseases such as cancer cardiovascular diseases diabetes and reproductive health Additional articles on the history of public health global issues research priorities and health and human rights make this work an indispensable resource for students health researchers and practitioners alike Provides the most comprehensive high level internationally focused reference work available on public health Presents an invaluable resource for both researchers familiar with the field and non experts requiring easy to find relevant global information and a greater understanding of the wider issues Contains interdisciplinary coverage across all aspects of public health Incorporates biomedical and health social science issues and perspectives Includes an international focus with contributions from global domain experts providing a complete picture of public health issues

Medical Anthropology in Europe Doreen Montag, 2005 This handbook to existing medical anthropology programs at the undergraduate and postgraduate level in Europe is designed for students who are looking for suitable training and professionals who are looking for expertise in the field
