Ricci, 2014-09-22 Faith War and Violence analyzes the age old links between religion and violence perpetrated in the name of God and the role religion performs in politically infusing the state with romantic spiritualism The volume examines instances of this phenomenon from ancient Rome to the modern day it finds that religion inspired violence is not restricted to Abrahamic faiths or to one geographic region The fact that symbolically charged religious violence has destructive consequences is not lost on contributors to Faith War and Violence Among the subjects tackled are the ideological and religious foundations that inspired the founders of Al Qaeda and its role in the Arab Spring the long history of religious conflict in Ireland known as the Troubles Sikh extremism and the evolution of the Christian approach to war As the

contributors demonstrate in Western societies the unity of religious fervor and warmongering stretches from Constantine's incorporation of Christian symbols into Roman army flags to slogans like Gott mit uns God is with us which appeared on the belt buckles of German soldiers in World War I In recent years George W Bush declared the war on terror a crusade and his speechwriter David Frum coined the religiously inspired term Axis of Evil to describe Iraq and other countries opposing the United States

The International Dimensions of Democratization in Egypt Gamal M. Selim, 2015-06-29 This book purports to examine the international dimensions of the democratization process in Egypt in the post Cold War era a theme which acquired significance at the academic and policy oriented levels in light of the growing internationalization of reform arrangements in the Arab world in post 9 11 and the greater involvement of external powers in Arab politics following the Arab Spring uprisings During the second half of the twentieth century the mainstream scholarship presented the democratization process as the outcome of domestic conditions not significantly influenced by actors outside the nation state With the end of the Cold War this perspective was challenged as a result of the third wave of democratization and the subsequent growth of the good governance discourse on the agenda of the international development establishment The new perspective attached a more significant role to external factors in the democratization process than was originally conceptualized
