differences and the nature of sex itself Influenced more by The Descent of Man than by the Origin of Species Bender s novelists built upon Darwin s anthropological and zoological materials to anatomize their character s courtship behavior returning consistently to concerns with physical beauty natural dominance and the power to select a mate Bringing the resources of the history of science and intellectual history to this the first full length study of the impact of Darwin s theories in American literature Bender revises accepted views of social Darwinism American literary realism and modernism in American literature forever changing our perceptions of courtship and sexual interaction in American fiction from 1871 to 1926 and beyond *the life of james dixon, d.d., wesleyan minister* richard watson dixon, m. a.,1874 *The Annual Literary Index* ,1905
