Laboratory experiments can be a challenge for teachers in small schools or home schools This manual and the kit designed to
accompany it are an effort to help solve this problem The hands on laboratory exercises have been designed with two
principle goals in mind 1 educational challenge and 2 convenience for the teacher Every experiment clearly teaches a
scientific principle They cover a number of topics usually taught at the 11th or 12th grade level The equipment has been
chosen or in some cases developed by the authors to produce successful results and give the student a real learning
experience This kit is only intended to cover the laboratory portion of a high school physics course The rest of the course
would be covered in a standard text LAB EXPERIMENTS Introduction A Scientific Investigation Introduction B Scientific
