Kent-Drury, 2005-03-30 Presenting web sites from around the world covering much of the world s literature this book provides creative and interesting thinking activities to enhance student understanding of literature and culture and to promote critical thinking This book will be very useful to teachers of world history and literature at the senior high school and undergraduate level Part of a well reviewed series of titles Using Internet Primary Sources to Promote Critical Thinking carries on the tradition of excellence in instructional tools Grades 9 12

Representations of Global Poverty Nandita Dogra, 2013-09-30 Through the efforts of increasingly media aware NGOs people in the west are bombarded with images of poverty and inequality in the developing world Representations of Poverty is the first comprehensive study of the communications and imagery used by international NGOs to represent the developing world In this meticulously researched and original book Nandita Dogra examines the full cycle of representation integrating analyses of the public messages of international development NGOs in the UK with the views of their staff and audiences Exploring the Europeanised discourses inherent in appeals to this notion of a common humanity she argues for a greater acknowledgment of NGOs as significant mediating institutions which can expand understandings of global inequalities and their historical causation The book is a timely addition to the growing fields of development and media studies and will be a key resource for academics policymakers and practitioners alike who have an interest in global poverty aid NGOs and the politics of representation **Prentice Hall World Explorer: Eastern Hemisphere** Heidi Hayes Jacobs, Brenda Randolph, Michal LeVasseur, Yvonne S. Gentzler, 2003 **Creativity** Silvio Manuel Brito, João Thomaz, 2022-09-14 What is creativity There are many definitions many of which involve trying different experiences searching for new solutions exercising our brains and meeting and talking with new people To be creative we need to believe in our skills and step outside our comfort zones in the search for new challenges This book is a discussion of creativity in four parts creativity behaviour creativity learning creativity in science and arts and creativity tendencies Chapters address such topics as creativity in children creativity in education creativity at the emotional level and more

The United States and Its Neighbors Timothy M. Helmus, 1984 A textbook introducing the geography history natural resources people and culture of the United States Canada Mexico and the countries of Central and South America and the Caribbean Social Studies Course of Study for Junior High Schools, Grades Seven, Eight, and Nine Long Beach (Calif.). Baird,2014-02-28 Exploring Enlightenment attitudes toward things and their relation to human subjects this collection offers a geographically wide ranging perspective on what the eighteenth century looked like beyond British or British colonial borders To highlight trends fashions and cultural imports of truly global significance the contributors draw their case studies from Western Europe Russia Africa Latin America and Oceania This survey underscores the multifarious ways in which new theoretical approaches such as thing theory or material and visual culture studies revise our understanding of the people and objects that inhabit the phenomenological spaces of the eighteenth century Rather than focusing on a particular geographical area or on the global as a juxtaposition of regions with a distinctive cultural footprint this collection draws attention to the unforeseen relational maps drawn by things in their global peregrinations celebrating the logic of serendipity that transforms the object into some thing else when it is placed in a new locale *Legal Geography* Matteo Nicolini,2022-12-05 This book

invites readers to critically rethink the interrelations between geography and the law Traditionally legal geographical interrelations have been dominated by scholars with backgrounds in geopolitics economics or geography More recently a new interdisciplinary approach has been developed with the aim of offering a fresh perspective on how law and geography intersect There has been a steady growth in cross disciplinary research in this field how legal geographical taxonomies interrelate has attracted attention from scholars and academics with a diverse range of backgrounds namely law anthropology and human physical geography thus giving rise to several publications Against this backdrop the book adopts a legal comparative perspective and assesses normative spatialities which are the outcomes of processes of legal spatial production In addition the comparative analysis offers readers new insights on some traditional geographic features which are essential to legal studies territorial identity regional demarcation territorial alternation and place name policy Examples are drawn from several jurisdictions both from the Global North and the Global South and partly employ a diachronic perspective As its subversive character is ideally suited to revealing policies and agendas comparative law is used to identify the ethnocentric and colonial biases underpinning the use and misuse of legal geographic devices by policymakers and academics In sum the book presents legal geography as an interdisciplinary undertaking in which geographers and legal scholars can jointly examine common concepts in the historical cultural political and social contexts in which law is practised The book transcends the boundaries between disciplines to engage in a fruitful dialogue on how the law can help to address the current socio geographic and ecological crises **Traditions and Encounters** Lynda Schaefer Bell,Bentley,1999-12
