Penetrating Radiation Systems and Applications ,1999 **Advanced Biomedical and Clinical Diagnostic Systems**
 ,2007 **RIAO/OPTILAS 2007** American Institute of Physics,2008-05 All papers have been peer reviewed This conference
 is focused on research activities on all areas of Optics mainly in Latin American and Iberic countries but also in other
 countries all over the world as well A specific session for Education in Optics is also included The main interest of this
 conference is offering a general view of the present research activities and trends on Optics in the Latin America area
 because all countries in the region with a significant activity in Optics were well represented including senior and young
 researchers as well as graduated students talking about their PhD and MSc thesis work Topics discussed included
 atmospheric optics color vision and radiometry diffractive optics education for optics guided optics holography and
 interferometry lasers and quantum optics metamaterials nonlinear optics optical instruments optical materials and
 applications optical metrology optical processing optical spectroscopy thin films *Proceedings of the 46th International
