Mazda Rx8 Engine Life:

The Classic Car Adventure Lance Cole, 2017-06-30 Nothing is new under the sun and classic cars books come and go. But here instead of a heavy large glossy book of classic car images and details destined to stay on a shelf is something new. This book is designed to be read as a companion, a book that can go in the car or on a plane and which can be read in full or dipped into anywhere for a classic car fix. Old stories and new details are presented and cover all eras of our cars. Gathered here is a compilation of the author's published and unpublished adventures and opinions about the design and the driving of some of the greatest cars in motoring history. From vintage to modern classic, pristine to oily rag, up hill down dale and across continents, award winning motoring author, designer and serial classic car owner Lance Cole charts the great classic car enthusiasm in a series of engaging essays about cars, car design and the men that made the motor industry. From tales of Malcolm Sayer to Bedelia and of BMW, Jaguar, Bugatti and Porsche to tales of old Saabs and rusty Citroens, classic car life is here. Erik Carlsson, Jacques Gerin, Giovanni Michelotti and Innes Ireland are just a few of the names that can be found in these pages. From design to driving, here is a book that is a classic car adventure.

Preston Tucker and Others Arvid Linde, 2011-05-10 Can you imagine a world where people drive beautiful and unusual cars created by designers prodigiously endowed with talent and imagination? Names like Preston Tucker, Carl Borgward and John DeLorean are hardly known today. Nevertheless, today's cars would be a lot different without their contributions to automotive engineering. Although the car is a technological and rational affair, it's the dreamers and eccentrics like these who have made the biggest contribution to the development of the industry: those who have had the ability to think beyond their time and conventions. Money doesn't drive progress in the car business; it is a passion for speed and an obsession with mechanisms. Yet for many a dreamer, this passion has ended in fiasco. Misunderstood and pushed aside by their contemporaries, they have been forced to watch their dreams trampled underfoot. This book takes a look at the history of the car from a different angle, avoiding the mainstream moguls and telling a story about a man and his dream and the like-minded people that came before and after him. Lavishly illustrated and intensively researched, it documents the making of some of the strangest and greatest cars of the past century. The main section is devoted to the unsung heroes of motoring and the rest of the book shines a light on the many ingenious inventions we now take for granted. Let's show some respect to the dreamers. Our world wouldn't be so exciting without them.
