

Name _____ Study Guide-Grade 9 Biology _____ Mrs. S.

50. You are a nurse practitioner. Your patient has the following symptoms, which you wrote down in the table below. Complete the table, so that you can explain the source of the problem.

Symptoms	Likely location/organ	Potential causes
Patient is having difficulty eliminating waste, and pain in lowest regions of digestive system		Swollen veins, making eliminating waste from this organ difficult Sitting too long, not enough blood/oxygen getting to organ
Patient reports difficulty swallowing food because this part of her digestive system is swollen		Tonsillitis or a throat/bacterial or viral infection
Patient reports sharp pains in this organ typically during the work day, but less when he returns home. Biopsy reveals tissue lining in this organ is being dissolved by acid.		Acid indigestion is dissolving the tissue lining of this organ/stomach, possibly due to stressful work environment or too much acid in his diet.

The Digestive System and Body Metabolism

• Digestion

• The system follows 6 steps:

1. Ingestion
2. Digestion
3. Absorption of nutrients
4. Chemical digestion
5. Absorption
6. Excretion

61. Analyze the slide to the left. Create a flashcard or draw a Venn Diagram to compare and contrast mechanical digestion with chemical digestion.

Mcas Biology Study Guide

because it fails to correspond with what comes habitually to mind When it comes time to characterize the educational environment of the past few decades it will undoubtedly be remembered as an era of reform Cries for reform in education are by no means new to schools of course but seldom are they the focus of such prolonged and concerted attention as they have lately received Not since the days of Sputnik have we witnessed such massive concern about what was happening or not happening in the nations classrooms In the sixties the thrust of reform focussed on the teaching of science and mathematics and spawned a period of curricular innovation that carried us well through the seventies It was an exciting time to teach a time filled with openness and optimism and plentiful support But with the publication of A Nation at Risk in 1983 by the National Commission on Excellence in Education a new interpretation struck Suddenly it seemed everything had gone awry the schools had somehow fallen derelict in their duty to prepare the nations youth to meet the manifold challenges that awaited them Schools had degenerated into Shopping Malls SAT scores had plummeted to new lows teachers had descended to shocking levels of incompetence and content had turned to jelly Subsequent reports by other foundations commissions and blue ribbon panels confirmed the assessment American schools are in trouble said John Goodlad After years of shameful neglect according to Ernest Boyer educators and politicians have taken the pulse of the public school and found it faint Horace Smith Ted Sizars mythical English teacher was forced to compromise but dares not express his bitterness to the visitor conducting a study of high schools because he fears he will be portrayed as a whining hypocrite Today with the No Child Left Behind act schools are embroiled in the tribulations of accountability with high stakes testing roiling instruction that must teach to the test and urban communities that must struggle just to keep their schools open Meanwhile as vouchers swell enrollments in private schools charter schools have begun to siphon off students and teachers from the public schools As a schoolmaster for the past forty five years I view these changes with trepidation A little too close to Horace Smith for comfort I am nonetheless in no mood to compromise Although I do not doubt that I am biased it doesnt seem to me that my students have changed significantly over the years nor for that matter the fundamental problems of education across continents and decades And while I am thankful that my country is worried about its teachers and its schools my
