

CHAPTER 8 ECONOMICS WORKBOOK

QUESTIONS

1.

- a. **Outline ONE economic cost and ONE social cost of unemployment. (2 marks)**

An economic cost of unemployment is lower living standards, and a social cost of unemployment is income inequality. Unemployment results in lower disposable incomes for unemployed workers as they are reliant on social welfare payments for income. Thus, they experience lower material living standards. Further, unemployment is more frequent in low-income earners (e.g., young & unskilled individuals) compared to high-income earners. As unemployment reduces the income of low-income earners further, income inequality within the economy rises along with poverty.

- b. **Explain the relationship between unemployment and inflation. (4 marks)**

Unemployment and inflation share an inverse relationship, whereby rises in unemployment result in falls in inflation. When there is low unemployment, usually below the non-accelerating rate of unemployment (NAIRU) at which there is no cyclical unemployment, there is a shortage of skills on the labour market, so wage pressures increase as firms compete for a limited pool of labour. This results in increased costs of production for firms (labour is an input for production) which is transferred to consumers through a general increase in the prices of goods and services, i.e., inflation rises. In comparison, when there is high unemployment, there is spare capacity in the labour market, so wage pressures decrease along with inflation. This inverse relationship between unemployment and inflation can be seen through the Long-run Phillip's curve:

[insert Phillip's curve here]

- c. **Discuss the limitations of the official measurement of unemployment. (4 marks)**

The official measurement of unemployment negatively overestimates the utilisation of labour resources in the economy by not accounting for hidden unemployment and underemployment. Since the official measurement states that individuals that work more than one hour per week are considered 'employed', it does not account for the relative hours and skill levels of workers. This means that highly skilled workers in low-paying or low-skill jobs and workers who work less hours than they desire are still considered 'employed', even though they are being underutilised. Thus, the measurement disregards underemployment. Furthermore, the official measurement does not account for individuals who have become discouraged from searching work but would take up suitable employment if it were available, that is, the hidden unemployed.

2.

- a. 85.3%
- b. 10.3%
- c. Hidden unemployment
- d. -5.2%

Ja Economics Workbook Answers Chapter 8

Sasha Hu

Ja Economics Workbook Answers Chapter 8:

Max Weber and His Contemporaries Wolfgang J. Mommsen, Jürgen Osterhammel, 2013-10-28 *Max Weber and His Contemporaries* provides an unrivalled tour d horizon of European intellectual life in the late nineteenth and early twentieth centuries and an assessment of the pivotal position within it occupied by Max Weber. Weber's many interests in and contributions to such diverse fields as epistemology, political sociology, the sociology of religion and economic history are compared with and connected to those of his friends, pupils and antagonists and also of those contemporaries with whom he had neither a personal relationship nor any kind of scholarly exchange. Several contributors also explore Weber's attitudes towards the most important political positions of his time: socialism, conservatism and anarchism and his own involvement in German politics. This volume contributes not only to a better understanding of one of the most eminent modern thinkers and social scientists but also provides an intellectual biography of a remarkable generation. This book was first published in 1987.

Economics Delos Oscar Kinsman, 1927 **Literary News**, 1887 **An Introduction to Primate Conservation** Serge A. Wich, Andrew J. Marshall, 2016. This book provides a comprehensive and state of the art synthesis of research principles and applied management practices for primate conservation. The Literary News Frederick Leypoldt, 1904 *Literary News* Augusta Harriet Garrigue Leypoldt, 1889 **Book Review Digest**, 1923 The Annual American Catalog, 1906, 1907 **Whitaker's Cumulative Book List**, 1973 Current literature of the month, 1924 **The Bookseller and the Stationery Trades' Journal**, 1923 **The Cumulative Book Index**, 1903 Bulletin ... of Books Added to the Public Library of Detroit, Mich, 1896 **Bulletin ... of Books Added to the Public Library of Detroit, Mich** Detroit Public Library, 1897 The Annual American Catalog, 1900-1909, 1907 The Environmental Ethics and Policy Book Donald VanDeVeer, Christine Pierce, 1998. This text and sourcebook crosses disciplinary boundaries and attends seriously to economic reasoning and its implications for environmental policy issues while taking a broad view of questions of ethics. It is appropriate and valuable not only for philosophy and environmental science students but also for students of economics, biology, engineering and public policy. *The Publisher and Bookseller*, 1929. Official organ of the book trade of the United Kingdom. *Public Affairs Information Service Bulletin*, 1919 *Bulletin of the Public Affairs Information Service* Public Affairs Information Service, 1925 *The Publishers Weekly*, 1897.

Yeah, reviewing a books **Ja Economics Workbook Answers Chapter 8** could grow your close links listings. This is just one of the solutions for you to be successful. As understood, execution does not recommend that you have fantastic points.

Comprehending as skillfully as harmony even more than new will present each success. next to, the statement as skillfully as sharpness of this Ja Economics Workbook Answers Chapter 8 can be taken as well as picked to act.
