Manual Training and Vocational Education Charles Alpheus Bennett, William Thomas Bawden, 1915 **Manual Training and Vocational Education**, 1916 **Manual Training Magazine** Charles Alpheus Bennett, William Thomas Bawden, 1916 **Manual of Environmental Microbiology** Christon J. Hurst, Ronald L. Crawford, 2002 The new second edition of this essential manual summarizes the information and knowledge of environmental microbiology in a single source. It details the natural fate of microorganisms in the environment as well as the intentional attempts to eliminate from the environment microorganisms that are pathogenic to humans or to plants and animals. The basic principles of environmental microbiology and general analytical methodologies common across the range of the environments covered are presented first. The core sections are structured with regard to the type of environmental medium being discussed. This landmark effort defines the study of environmental microbiology as we know it today and serve as an essential contribution to the literature.
