## **Love Objects Emotion Design And Material Culture:**

Love Objects Anna Moran, SORCHA O'BRIEN, 2014-08-28 How are love and emotion embodied in material form Love Objects explores the emotional potency of things addressing how objects can function as fetishes symbols and representations active participants in and mediators of our relationships as well as tokens of affection symbols of virility triggers of nostalgia replacements for lost loved ones and symbols of lost places and times Addressing both designed things with attitude and the wild things of material culture Love Objects explores a wide range of objects from 19th century American portraits displaying men's passionate friendships to the devotional and political meanings of religious statues in 1920s Ireland Love Objects Anna Moran, 2014

**Feeling Things** Stephanie Downes, Sally Holloway, Sarah Randles, 2018-01-13 This interdisciplinary essay collection investigates the various interactions of people feelings and things throughout premodern Europe It focuses on the period before mass production when limited literacy often prioritised material methods of communication The subject of materiality has been of increasing significance in recent historical inquiry alongside growing emphasis on the relationships between objects emotions and affect in archaeological and sociological research The historical intersections between materiality and emotions however have remained under theorised particularly with respect to artefacts that have continuing resonance over extended periods of time or across cultural and geographical space Feeling Things addresses the need to develop an appropriate cross disciplinary theoretical framework for the analysis of objects and emotions in European history with special attention to the need to track the shifting emotional valencies of objects from the past to the present and from one place and cultural context to another The collection draws together an international group of historians art historians curators and literary scholars working on a variety of cultural literary visual and material sources Objects considered include books letters prosthetics religious relics shoes stone and textiles Many of these have been preserved in international galleries museums and archives while others have remained in their original locations even as their contexts have changed over time The chapters consider the ways in which emotions such as despair fear grief hope love and wonder become inscribed in and ascribed to these items producing emotional objects of significance and agency Such objects can be harnessed to create affirm or express individual relationships as for example in religious devotion and practice or in the construction of cultural communal and national identities

**Moving Objects** Damon Taylor, 2020-09-17 Moving Objects deals with emotive design designed objects that demand to be engaged with rather than simply used If postmodernism depended upon ironic distance and Critical Design is all about questions then emotive design runs hotter than this confronting how designers are using feelings in what they make Damon Taylor's original study considers these emotionally laden highly authored works often produced in limited editions and sold like art objects such as a chair made from cuddly toys a leather sofa that resembles a cow and a jewellery box fashioned from human hair Tracing the phenomenon back to the Dutch inflection that began with Droog designers like Jurgen Bey and Hella Jongerius Taylor conducts an analysis of the development of Design Art and looks

for its origins in the uncanny explorations of surrealism Offering a critique of Speculative Design and an examination of the work of designers such as Mathias Bengtsson whose work involves growing furniture inside computers Taylor asks what happens when the tangible melts into the datascape and design becomes a question of mobilities In this way *Moving Objects* examines contemporary issues of how we live with artefacts and what design can do *What is the History of Emotions?* Barbara H. Rosenwein, Riccardo Cristiani, 2017-12-08 *What Is the History of Emotions* offers an accessible path through the thicket of approaches debates and past and current trends in the history of emotions Although historians have always talked about how people felt in the past it is only in the last two decades that they have found systematic and well grounded ways to treat the topic Rosenwein and Cristiani begin with the science of emotion explaining what contemporary psychologists and neuropsychologists think emotions are They continue with the major early foundational approaches to the history of emotions and they treat in depth new work that emphasizes the role of the body and its gestures Along the way they discuss how ideas about emotions and their history have been incorporated into modern literature and technology from children s books to videogames Students teachers and anyone else interested in emotions and how to think about them historically will find this book to be an indispensable and fascinating guide not only to the past but to what may lie ahead *Describing Women's Clothing in Eighteenth-century England* Elizabeth Spencer, 2024 Descriptions of women s clothing increasingly circulated across textual genres and beyond in eighteenth century England This book explores the significance of these descriptions across a range of sources including wills newspapers accounts court records and the records of the old poor law Attention has rested on women literate and wealthy enough to leave behind textual or material traces but this book ranges from the parish pauper to the gentlewoman to consider descriptive languages rhetorical strategies and relationships with clothing across the social hierarchy It explores how women described their own clothing but also looks at how it was described by overseers family members retailers and even strangers It shows that we must look beyond isolated descriptions to how why and who was describing clothing to understand its role Chapters uncover themes of material obligation expectation and entitlement **Colorado School Journal** , 1901 *Academy and Literature* Charles Edward Cutts Birch Appleton, Charles Edward Doble, James Sutherland Cotton, Charles Lewis Hind, William Teignmouth Shore, Alfred Bruce Douglas, Ellis Ashmead-Bartlett, Thomas William Hodgson Crosland, 1911 **The Illustrated carpenter & builder series of technical manuals, ed. by J. Black** Building trades journal, 1902 *Sensitive Objects* Jonas Frykman, Maja Povrzanovic Frykman, 2016-04-12 Some objects seem especially personal and important to us be it a quickly packed suitcase an inherited vase or a photograph In *Sensitive Objects* the authors discuss when how and why particular objects appear as sensitive They do so by analyzing the objects affective charging in the context of historically embedded practices *Sensitive Objects* is a contribution to the upcoming field of affect research that has so far been dominated by psychology and cultural studies and the authors examine the potential for epistemic gain by connecting the studies of affect with the studies of material culture

The contributors predominantly ethnologists and anthropologists use fieldwork to examine how people project affects onto material objects and explore how objects embody or trigger affects and produce affective atmospheres     **Surface Design Journal** ,1991     **The Academy and Literature** ,1911     *Eye* ,2004     Academy, with which are Incorporated Literature and the English Review ,1911     **The Ethical World** ,1909     The Bulletin of the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.),1912 New ser v 6 29 include 77th 100th Annual report of the Trustees of the Metropolitan Museum of Art 1946 1969 70 previously and subsequently published separately     Technoscience and Everyday Life Mike Michael,2006-09 This book traces the multiple ways in which technoscience features in and affects the dynamics of everyday life and explores how the everyday influences the course of technoscience In the process it takes account of a range of core social scientific themes body identity citizenship society space and time It combines critique and microsocial analysis to develop several novel conceptual tools and addresses key contemporary theoretical debates on posthumanism social material divides process philosophy and complexity temporality and spatiality This book is a major contribution to the sociology of everyday life science and technology studies and social theory back cover     **The Listener** ,1949     Sunday School Times ,1888     **The American Dictionary and Cyclopedia** Robert Hunter,1900
