professionalization of the language mediation sector demanding ever more highly trained employees with broader repertoires. This trend is evidenced in the present collection which addresses issues in pedagogy in a variety of translation and interpreting domains. A global range of contributors discuss teaching evaluation professionalization and competence as they apply to an array of educational and linguistic situations. *Translator and Interpreter Training: Issues, Methods and Debates* presents an in-depth consideration of the issues involved in this area of translation and interpreting studies and will be of interest to all students and academics working and researching in the field.

Collins, S. J., 2019-03-20. Inspired by the work of eminent scholar Richard Kieckhefer *The Sacred and the Sinister* explores the ambiguities that made and make medieval religion and magic so difficult to differentiate. The essays in this collection investigate how the holy and unholy were distinguished in medieval Europe where their characteristics diverged and the implications of that deviation. In the Middle Ages the natural world was understood as divinely created and infused with mysterious power. This world was accessible to human knowledge and susceptible to human manipulation through three modes of engagement: religion, magic, and science. How these ways of understanding developed in light of modern notions of rationality is an important element of ongoing scholarly conversation. As Kieckhefer has emphasized, ambiguity and ambivalence characterize medieval understandings of the divine and demonic powers at work in the world. The ten chapters in this volume focus on four main aspects of this assertion: the cult of the saints, contested devotional relationships and practices, unsettled judgments between magic and religion, and inconclusive distinctions between magic and science. Freshly insightful, this study of ambiguity between magic and religion will be of special interest to scholars in the fields of medieval studies, religious studies, European history, and the history of science. In addition to the editor, the contributors to this volume are Michael D. Bailey, Kristi Woodward, Bain Maeve B. Callan, Elizabeth Casteen, Claire Fanger, Sean L. Field, Anne M. Koenig, Katelyn Mesler, and Sophie Page. *Code of Federal Regulations: Aeronautics and Space* Office of the Federal Register, Office of the Federal Register (U.S.) Staff, 2007-04. The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States.
