Critical Perspectives on Cultural Memory and Heritage focuses on the importance of memory and heritage for individual and group identity and for their sense of belonging It aims to expose the motives and discourses related to the destruction of memory and heritage during times of war terror sectarian conflict and through capitalist policies It is within these affected spheres of cultural heritage where groups and communities ascribe values develop memories and shape their collective identity

Cultures of Computation and Quantification in the Ancient World Karine Chemla,Agathe Keller,Christine Proust,2023-01-01 This book sheds light on the variety of mathematical cultures in general To do so it concentrates on cultures of computation and quantification in the ancient world mainly in ancient China South Asia and the Ancient Near East and offers case studies focused on numbers quantities and operations in particular in relation to mathematics as well as administrative and economic activities The various chapters focus on the different ways and contexts of shaping numbers and quantities and on the procedures applied to them The book places special emphasis on the processes of emergence of place value number systems evidenced in the three geographical areas under study All these features yield essential elements that will enable historians of mathematics to further capture the diversity of computation practices in their contexts whereas previous historical approaches have tended to emphasize elements that displayed uniformity within civilizational blocks The book includes editions and translations of texts some of them published here for the first time maps and conventions for editions of ancient texts It thereby offers primary sources and methodological tools for teaching and learning The volume is aimed at historians and philosophers of science and mathematics historians of the ancient worlds historians of economics sinologists indologists assyriologists as well as undergraduate graduate students and teachers in mathematics the history and philosophy of science and mathematics and in the history of ancient worlds

Ur III Texts in the Schøyen Collection Jacob L. Dahl,2020-07-06 Judging from the sheer amount of textual material left to us the rulers of ancient Ur were above all else concerned with keeping track of their poorest subjects who made up the majority of the population under their jurisdiction Year after year administrators recorded in frightening detail the whereabouts of the poorest individuals in monthly and yearly rosters assigning tiny parcels of land to countless prebend holders and starvation rations to even more numerous estate slaves The texts published in this volume dating from the time of the Third Dynasty of Ur ca 2100 2000 BC attest to the immense investment of the ancient rulers in managing their subjects This volume presents editions of two hundred and twenty four cuneiform tablets selected from the Sch yen Collection the vast majority of which have not been previously published The ancient provenience for these texts is

primarily Umma with other core provinces represented in smaller numbers such as notable contributions from ancient Adab which is underrepresented in the published record In order to provide a fuller picture of the administration of the Ur III state a number of texts from other collections both published and unpublished have been integrated into this volume Accompanied by Jacob L Dahl s precise translations extensive commentary and exhaustive indexes this volume presents extensive new data on prosopography economy accounting procedures letters contracts technical terminology and agriculture that adds significantly to our knowledge of society and the economy during the Third Dynasty of Ur An important contribution to the study of the Ur III period in particular for Assyriology this volume will serve as a useful handbook for scholars and students alike
