Lintelligence De Situation Savoir Exploiter Toutes Les Situations:

L'intelligence de situation David Autissier, 2011-07-07 Savoir tirer parti d'une situation quelle qu'elle soit est un talent qui si elle est parfois innée peut être travaillée. Il s'agit alors de développer son intelligence de situation. Mais comment la définir? L'intelligence de situation représente en fait la capacité des individus à comprendre les contextes et les personnes de manière à agir en connaissance de cause de façon que tout change soit profitable et produise de la richesse. En classifiant 100 comportements observés en entreprise sur plus de trois ans, l'auteur identifie les racines de l'intelligence de situation en mettant en évidence les 5 grands points à cultiver pour augmenter son potentiel de richesse: l'introspection, la compréhension, l'interaction, la réalisation et la capitalisation. Ouvrage publié avec le concours du Centre national du livre. **Handbook of Research on Operational Quality Assurance in Higher Education for Life-Long Learning** Nuninger, Walter, Châtelet, Jean-Marie, 2019-12-06 Previously key levers of higher education have seemed to be the learning organization work integrated learning for life long learning and learner centered pedagogy. However funding evolution and the integration of digital tools are changing professional styles and learning behaviors. Nonetheless the sustainability of higher education requires quality agreement based on ethical robust and replicable pedagogical approaches. The Handbook of Research on Operational Quality Assurance in Higher Education for Life Long Learning is a comprehensive scholarly book that focuses on the evolution of the education framework and job market as well as necessary changes needed in organizations to reply to life long learning and competency based training initiatives. Formative and Shared Assessment to Promote Global University Learning Sánchez-Santamaría, José, 2023-07-10 Formative and shared assessment (FSA) implies a radical change in the way in which we understand the meaning and function of the assessment of university learning. In this sense assessment is learning; it is not only about what the student learns but also about how the student learns. This means that any learning task involves making students aware of what and how they learn and how this learning can be used successfully in the future. Formative and Shared Assessment to Promote Global University Learning offers an updated and comprehensive review of FSA in university teaching from an international perspective. In this regard, this publication provides an update of the concepts and approaches to FSA and suggests a review

of the methods techniques and instruments of F SA as well as the conditions of validity and reliability to garner high quality
