human rights in practice can be found in our own backyard Human Rights in Our Own Backyard examines the state of human rights and responses to human rights issues drawing on sociological literature and perspectives to interrogate assumptions of American exceptionalism How do people in the U S address human rights issues What strategies have they adopted and how successful have these strategies been Essays are organized around key conventions of human rights focusing on the relationships between human rights and justice the state and the individual civil rights and human rights and group rights versus individual rights The contributors are united by a common conception of the human rights enterprise as a process involving not only state defined and implemented rights but also human rights from below as promoted by activists The Uniform Trade List Annual ,1873 With alphabetical indexes of firms and trade specialties
