Part-A : Reading Test (60 Marks)

1. Read the passage and answer the questions A and B

One of the sources of water in our country are the rivers. Rivers are everywhere in our life, literature, economy and culture. But are the rivers in good shape? Unfortunately, they are not. A few are already dead and several are going through the pangs of death. The river Buriganga is an example of a dying river. A report published in the Daily Sun describes what has happened to the river Buriganga and why. Its water is polluted and a perpetual stench fills the air around it. But that is not what it was like before. The report says that the river had a glorious past. Once it was a tributary of the mighty Ganges and flowed into the Bay of Bengal through the river Dhaleshwari. Gradually, it lost its link with the Ganges and got the name Buriganga. The Mughals marveled at the tide level of the Buriganga and founded their capital Jahangirnagar on its banks in 1610. The river supplied drinking water and supported trade and commerce. Jahangirnagar was renamed Dhaka which grew into a heavily populated city with a chronic shortage of space.

The city paid back the bounty of the river by sucking life out of it! According to newspaper report, the Buriganga is dying because of pollution. Huge quantities of toxic chemicals and wastes from mills and factories, hospitals and clinics and households and other establishments are dumped into the river everyday. The city of Dhaka discharges about 4500 tons of solid waste everyday and most of it is directly released into the Buriganga. According to the Department of the Environment (DoE), 20,000 tons of tannery waste, including some highly toxic materials, are released into the river everyday. Experts identified nine industrial areas in and around the capital city as the primary sources of river pollution: Tongi, Tejgaon, Hazaribagh, Tarabo, Narayanganj, Savar, Gazipur, Dhaka Export Processing Zone and Ghorashal.

2. Read the following text and make a flow chart showing important aspects of craftwork. (No. 1 has been done for you)

2 × 5 = 10

A craftwork is an applied form of art, a social and cultural product reflecting the inclusive nature of folk imagination. A craftwork, which usually doesn't bear the signature of its maker, retains a personal touch. When we look at a thirty year old nakshukantha we wonder at its motifs and designs that point to the artistic ingenuity and the presence of the maker in it. The fact that we don't know her name or any other details about her doesn't take anything away from our appreciation of the artist. Indeed, the intimate nature of the kantha and tactile feeling it generates animate the work and make it very inviting.

A craftwork is shaped by the interaction of individual creativity and community aesthetics, utility functions and human values. It is distinguished by its maker's desire to locate himself or herself in the wider and ever-changing cultural aspirations of the community and subsequently of the market.

1. An applied form of art → 2 → 3 → 4 → 5 → 6

3. Summarize the following text.

10

"I'm not in the least hungry," my guest sighed, "but if you insist I don't mind having some asparagus." I ordered them. "Aren't you going to have any?" "No, I never eat asparagus." "I know there are people who don't like them. The fact is, you ruin your palate by all the meat you eat." We waited for the asparagus to be cooked. Panic seized me. It was not a question now of how much money I should have left over the rest of the month, but whether I had enough to pay the bill.
