Rationalising the Bible — Volume 1 Ivy Bedworth, 2016-02-28 Rationalising the Bible is a collection of volumes that cover the books of the Old and New Testaments of the Holy Bible Written by mostly unidentified authors the Bible is generally attributed with being the moral compass of the world of Judeo Christian religious adherents In fact the Bible is mostly mythological history inaccurate science exaggerated reports of violence and discrimination against the people who settled the Fertile Crescent and a set of laws plagiarised from those already in existence in the area Even the writing of it claimed to be that of the patriarchs can clearly be identified in the reading of it as belonging rather to a period when all people in the civilised world were writing their stories It was not written as atheists often charge by illiterate nomadic tribespeople in pre history Instead it was written by politicians and priests at a time when the western civilisations were making their mark on the world s politics

Decolonizing the Study of Palestine Ahmad H. Sa'di, Nur Masalha, 2023-06-15 Writing about Palestine and the Palestinians continue to be controversial Until the late 1980s the question of Palestine was approached through Western social theories that had appeared after World War 2 This endowed European settlers and colonists the mission of guiding the backward natives of Palestine to modernity However since the work of Palestinian scholar Elia Zureik the study of Israel and the ethnic relations in Palestine Israel has been radically shifted Building on Zureik s work this book studies the colonial project in Palestine and how it has transformed Palestinians lives Zureik had argued that Israel was the product of a colonization process and so should be studied through the same concepts and theorization as South Africa Rhodesia Australia and other colonial societies He also rejected the moral and civilizational superiority of the European settlers Developing this work the contributors here argue that colonialism is not only a political economic system but also a mode of life and consciousness which has far reaching consequences for both the settlers and the indigenous population Across 13 chapters in addition to the introduction and the afterward the book covers topics such as settler colonialism dispossession the separation wall surveillance technologies decolonisation methodologies and popular resistance Composed mostly of Palestinian scholars and scholars of Palestinian heritage it is the first book in which the indigenous Palestinians not merely write back but principally aim to lay the foundations for decolonial social science research on Palestine *Supreme Court, Appellate Division- First Department*, **Prentice-Hall American Labor Arbitration Awards** Prentice-Hall, Inc, 1958 *New York Legislative Documents* New York (State).
