Literature and Photography in Transition, 1850-1915 O. Clayton, 2014-11-21 Literature and Photography in Transition 1850 1915 examines how British and American writers used early photography and film as illustrations and metaphors It concentrates on five figures in particular Henry Mayhew Robert Louis Stevenson Amy Levy William Dean Howells and Jack London Victorian Photography, Literature, and the Invention of Modern Memory Jennifer Green-Lewis, 2020-08-07 Analysing a broad range of texts by inventors cultural critics photographers and novelists this book argues that Victorian photography ultimately defined the concept of memory for generations to come including our own The book will be of interest to students of Victorian and modernist literature visual culture and intellectual history as well as scholars working within the emerging field of research at the intersection of photographic and literary studies Writing, Authorship and Photography in British Literary Culture, 1880 - 1920 Emily Ennis, 2022-03-24 At the turn of the 20th century printing and photographic technologies evolved rapidly leading to the birth of mass media and the rise of the amateur photographer Demonstrating how this development happened symbiotically with great changes in the shape of British literature Writing Authorship and Photography in British Literary Culture 1880 1920 explores this co evolution showing that as both writing and photography became tools of mass dissemination literary writers were forced to re evaluate their professional and personal identities Focusing on four key authors Thomas Hardy Bram Stoker Joseph Conrad and Virginia Woolf each of which had their own private and professional connections to photographs this book offers valuable historical contexts for contemporary cultural developments and anxieties At first establishing the authors response to developing technologies through their non fiction personal correspondences and working drafts Ennis moves on to examine how their perceptions of photography extend into their major works of fiction A Laodicean Dracula The Secret Agent The Inheritors and The Voyage Out Reflecting on the first graphic revolution in a world where text and image are now reproduced digitally and circulated en masse and online Ennis redirects our attention to when image and text appeared alongside each other for the first time and the crises this sparked for authors how they would respond to increasingly photographic depictions of everyday life and in turn how their writing adapted to a distinctly visual mass media The Rhetoric of Photography in Modern Japanese Literature Atsuko Sakaki, 2015-10-20 In The Rhetoric of Photography in Modern Japanese Literature Atsuko Sakaki closely examines photography inspired texts by four Japanese novelists Tanizaki Jun ichir 1886 1965 Abe K b 1924 93 Horie Toshiyuki b 1964 and Kanai Mieko b 1947 As connoisseurs practitioners or critics of this visual medium these authors look beyond photographs status as images that document and verify empirical incidents and existences articulating instead the physical process of photographic production and photographs material presence in human lives This book offers insight into the engagement with photography in Japanese literary texts as a means of bringing forgotten subject object dynamics to light It calls for a fundamental reconfiguration of the parameters of modern print culture and its presumption of the transparency

of agents of representation *Snapshots of the Soul* Molly Thomasy Blasing, 2021-07-15 *Snapshots of the Soul* considers how photography has shaped Russian poetry from the early twentieth century to the present day Drawing on theories of the lyric and the elegy the social history of technology and little known archival materials Molly Thomasy Blasing offers close readings of poems by Boris Pasternak Marina Tsvetaeva Joseph Brodsky and Bella Akhmadulina as well as by the late and post Soviet poets Andrei Sen Sen kov Arkadii Dragomoshchenko and Kirill Medvedev to understand their fascination with the visual language representational power and metaphorical possibilities offered by the camera and the photographic image Within the context of long standing anxieties about the threat that visual media pose to literary culture Blasing finds that these poets were attracted to the affinities and tensions that exist between the lyric or elegy and the snapshot *Snapshots of the Soul* reveals that at the core of each poet s approach to writing the photograph is the urge to demonstrate the superior ability of poetic language to capture and convey human experience Open Access edition funded by the National Endowment for the Humanities Historical Abstracts ,2000 **International repertory of the literature of art** ,1984

Transitions in Namibia Henning Melber, 2007 This volume completes the research project on Liberation and Democracy in Southern Africa LiDeSA It mainly addresses socioeconomic and gender related issues in contemporary Namibia Most of the contributors are either Namibian based in Namibia or have undertaken extensive research in the country Their interest as scholars and or civil society activists is guided by a loyalty characterised not by rhetoric but by empathy with the people They advocate notions of human rights social equality and related values and norms instead of being driven by an ideologically determined party political affiliation Their investigative and analytical endeavours depict a society in transition a society that is far from being liberated Not surprisingly this compilation explores the limits to liberation more than its advances 1234 Howard Street Residential Project ,2004 1601-1603 Larkin Street Housing Project ,2007 *Library*
