sound mixing is the blending of multiple sound sources by an audio engineer using a mixing console or software. Sounds that are mixed include those from instruments and voices which are picked up by microphones for a drum kit, lead vocals and acoustic instruments like piano or saxophone and pickups for instruments such as electric bass and pre-recorded material such as songs on CD or a digital audio player. Read this book and find out how to set up a sound system, what to listen out for in a sound system, how to use a mixer, what sound processing effects such as equalizers, compressors and reverb units do and how to apply them in different situations, basic mixing principles, how to run a soundcheck.
