Prokofieff, 2016-03-21 And however paradoxical it may seem today the Grail mood is in the fullest sense to be found in Russia And the future role that Russia will play in the sixth post Atlantean epoch rests firmly upon this unconquerable Grail mood in the Russian people Rudolf Steiner Although Eastern Europe has been part of the Christian world for more than a thousand years its spiritual identity remains a mystery This mystery says Sergei Prokofieff can only fully be solved by looking behind external events and seeking spiritual meta historical dimensions of reality In illuminating the maya of outer history Prokofieff reveals the forces that have been at work to hinder the progress of mankind the materialistic Brotherhoods of the West and the occult aspects of both Jesuitism and Bolshevism These adversary groups have created a karma of materialism that the eastern Slavic peoples have taken upon themselves out of their exalted willingness for sacrifice Prokofieff shows how from the earliest times the future conscience of humanity flowed from hidden mystery centres in Hibernia to the eastern Slavic peoples As a result qualities of compassion patience and willingness for sacrifice developed in their souls creating a truly Christian Grail mood Despite incalculable suffering from the persecutions of the Mongol hordes to the Bolshevik experiment of the last century this quality has become an unconquerable force Will humanity be able to use the present opportunity granted by this sacrifice to fulfil the primary purposes of the present cultural epoch Can the future mysteries of the Holy Grail be fulfilled In this momentous work breathtaking in its scope and detail the author attempts a truly esoteric approach penetrating to the spiritual wellsprings of Eastern Europe in the light of Rudolf Steiner's research *The Knights Templar* Gil McHattie, 2011 The beginning of the Templar Order is shrouded in mystery Little is known about its foundation inner workings or its rapid growth Such a lack of knowledge can lead to all sorts of speculation and at times bizarre theories This book the result of a conference on the theme at Emerson College in England offers new well grounded perspectives that utilize both esoteric and exoteric sources From varying perspectives the contributors tackle key questions relating to the formation of the Templar Order as well as its goals and intentions The authors explore the spiritual and historical background of the Knights Templar as well as the Order's significance today and its continuing impulse for the future With its broad scope this stimulating anthology encourages independent open minded enquiry and research The Knights Templar features contributions from Peter Tradosky Gil McHattie Horst Biehl Margaret Jonas Rolf Speckner Sylvia Francke Simon Cade Williams Jaap van der Haar Alfred Kon David Lenker Peter Snow Christine Gruwez Frans Lutters Walter Johannes Stein and
