Developing Materials for Language Teaching Brian

Tomlinson,2014-02-13 There have been a number of books published on various aspects of materials development for language teaching but Developing Materials for Language Teaching is the only one which provides a comprehensive coverage of the main aspects and issues in the field This second edition brings it completely up to date and expands on the original book It deals with advances in IT and an increasingly globalized world It is the only publication which views current developments in materials development through the eyes of developers and users of materials from all over the world In doing so it applies principles to practice in ways demonstrated to facilitate the effectiveness of language learning materials The chapters are written so that the book provides critical overviews of recent developments in materials development and at the same time acts as a stimulus for development and innovation in the field It is intended both for use as a course book on postgraduate and teacher training courses and as a resource for the stimulus and refreshment of teachers publishers and applied linguists in the field The book contains updated versions of many of the chapters in the 2003 edition plus new chapters on corpus informed materials development materials development for blended learning materials development for EAP materials development for ESOL and materials development for young learners **Practice and Theory for Materials**

Development in L2 Learning Alan Maley,Hitomi Masuhara,Freda Mishan,2017-03-07 This volume represents a unique addition to the growing body of empirical literature on materials development adopting a reverse approach to the topic Rather than applying theory to practice practitioners and researchers from 11 countries reappraise applied linguistics theories through practice The book also provides evidence for the diversity of materials development around the globe at different levels for different specialities and for different purposes Each chapter surveys the relevant literature such as task based learning and language and culture describes a specific research project reports the results of the project and discusses the implications of these results for the development of materials both in the local context and in general After each section there are editorial comments highlighting the issues emerging from the research and there is a conclusion which connects the findings of the various chapters and makes suggestions both for future research and for the principled development of materials for L2 learners The book will be suitable for teachers materials developers academics and students in post graduate courses in applied linguistics in TEFL TESOL and in the teaching of other languages as an L2 **Perspectives on**

Language Learning Materials Development Freda Mishan,Angela Chambers,2010 Language learning materials development remains a surprisingly under supported aspect of language teaching This book constitutes a much needed resource in the area aiming to support and advance the craft of materials design The volume offers a snapshot of the contemporary influences on language learning materials development from diverse perspectives around the globe These influences include the demands of teaching ESOL in Britain and Ireland the impact of Corpus Linguistics the needs of young learners and of diverse worldwide audiences the development of intercultural competence as well as the integration of L2 acquisition research Contributors to the volume are drawn from a broad range of teaching research and materials

development backgrounds The book includes some chapters based on papers given at the MATSDA Materials Development Association 2008 conference

Authenticity in Materials Development for Language Learning Alan Maley, Brian Tomlinson, 2017 This volume makes a unique contribution to the literature on materials development for language learning It focuses on issues related to authenticity in materials development and includes research based position statements applications of theory to practice and developments of theory from observed practice Each paper concentrates on a different aspect of authenticity and many of them introduce the reader to previously unexplored facets of authenticity The chapters are sequenced so that the book moves from general discussion about the value of authenticity to reports of evaluations of authenticity to reports of the exploitation of authenticity in specific learning contexts Many questions are raised much revealing data is reported and analysed and many pedagogic suggestions are made The contributions here have been written so that they are of potential value to teachers to materials developers to post graduate students and to researchers They are written to be academically rigorous but at the same time to be accessible to newcomers to the field and to experienced experts alike

Developing Materials for Language Teaching Brian Tomlinson, 2003-01 This sequel to *Materials Development in Language Teaching* suggests that the informed and reflective practitioner is the ideal agent for mediating between the practice and theory of language teaching The contributors are teachers materials developers applied linguists teacher trainers and publishers sharing four things in common experience as teachers of a second or foreign language contribution to the development of second language materials knowledge of developments in linguistic and psycholinguistic theory and respect for the teacher as the person with the power to decide what actually happens in the classroom The text is a course book for materials development courses a resource book for teachers working on materials development a follow up book for workshops on the subject and a stimulus book for in service practitioners

Using Language Learning Materials Claudia Fernández, Adon Berwick, 2022-07-15 This volume centres on the domain in materials research that is the least investigated how language teachers and learners use materials Issues such as how the use of materials by teachers and learners inform materials writers whether and how teachers perspectives influence how they perceive and enact materials and what are the factors that contribute to teachers use of both traditional and innovative textbooks are discussed here The volume also addresses some of the theoretical frameworks that inform materials use and will advance the readers understanding of this promising area of materials research It will appeal to postgraduate students teachers materials developers and researchers
