**Economia e territorio** Enrico Cirelli,Enrico Giorgi,Giuseppe Lepore,2019 Questo volume il risultato di quattro diversi seminari che hanno rappresentato un occasione unica per condividere i risultati degli ultimi anni di ricerche archeologiche e topografiche condotte all interno delle regioni comprese tra le due sponde dell Adriatico centrale Sono stati coinvolti ricercatori che si occupano o si sono occupati di queste tematiche negli attuali territori costieri di Emilia Romagna Marche Abruzzo Dalmazia e Illiria Le recenti ricerche sembrano indicare che diversi fenomeni di trasformazione della cultura materiale e delle scelte insediative sono influenzati direttamente dai continui cambiamenti politici e dalle diverse influenze economiche e culturali che caratterizzano le zone occupate dai barbari rispetto a quelle sotto il controllo romano bizantino Nei contributi raccolti in questa occasione vengono

prese in esame attraverso sintesi regionali e attraverso la presentazione di singoli contesti di studio le forme degli insediamenti e gli aspetti della produzione e della circolazione dei prodotti ceramici e di tutti i prodotti artigianali in questo periodo di crisi This volume is the result of four seminars that represented a unique opportunity to share the results of the most recent archaeological and topographical research conducted in the regions on the two shores of the central Adriatic Sea The contributors include specialists who have been involved in excavations or who have researched archaeological topics in the coastal territories of Emilia Romagna Marche Abruzzo Dalmatia and Illyria Recent research seems to indicate that different phenomena relating to the transformation of material culture and settlement choices were directly influenced by the continuous political changes and the various economic and cultural influences that characterised the areas occupied by barbarians compared to those under Roman Byzantine control The papers here collected through regional summaries and through the presentation of individual study contexts examine the forms of settlements and aspects of the production and circulation of ceramics and other craft products during this period of crisis

**Retrofitting of Heritage Structures**

S. Syngellakis, 2013 The preservation of heritage architecture is a cultural objective rigorously pursued by communities and nations wishing to promote their history civilisation and aesthetic achievements Structures built in the remote past by traditional methods have suffered the consequences of extreme loading events such as earthquakes over long time periods Retrofitting is an approach based on recent technological developments and scientific knowledge whereby modern construction methods and materials are applied to the repair and strengthening of historical structures This book aims to inform on current retrofitting techniques their application to various types of historical architecture and their effectiveness to fulfil their purpose Retrofitted structural forms covered in the book vary widely from age old places of worship such as churches mosques and temples as well as castles and palaces to more modern distinguished private residences or public buildings some of them designed by well known architects Their methods of construction range from traditional such as stone or brick masonry to more recent textile block systems and even reinforced concrete frameworks Reference is made to detailed visual inspections of damaged structure providing valuable insight into possible causes of failure such inspections are usually combined with material characterisation which is an essential input to numerical modelling for assessing the behaviour of the structure before and after retrofitting The book describes strengthening techniques for masonry walls including re pointing injection grouting and the use of steel ties The use of reinforced concrete is proposed in the form of cast in place walls jackets or tie beams that of carbon fibre reinforced laminates for strengthening walls and slabs Innovative use of materials such as shape memory alloys self compacting concrete or thin lead layers is also suggested Particular attention is given to methods for moderating the consequences of destructive earthquakes Seismic energy absorbing devices and base isolation systems are two effective means of providing protection against future seismic events although their application is often met with many technical challenges in practice Retrofitting of Heritage Structures Against Earthquakes

will be of interest to members of academic institutions government or private cultural preservation establishments and specialist consultant engineers The book contains very practical technical advice on many issues this would be of considerable interest to construction companies specialising in repairs and maintenance of historical structures

**Interdisciplinary Studies on Ancient Stone** Association for the Study of Marble and Other Stones used in Antiquity. International Symposium,2012      **Saving Our Architectural Heritage** N. S. Baer,R. Snethlage,1997-04-03 It has become obvious that public policy will play a critical role in determining what portion of our architectural heritage will be passed on to future generations and what portion will be lost to deterioration development and natural hazards In developed nations as much as 10% of the built environment is deemed of sufficient cultural and historic importance to be given local or national listing At the international level UNESCO maintains a World Heritage List that includes many stone monuments While the past two decades have witnessed a growing body of research devoted to understanding the fundamental mechanisms of damage to stone and to developing strategies for the conservation of stone virtually no research has been conducted on the quantification of the economic role of stone buildings and structures as well as the valuation of cultural property In order to introduce the tools and methods of economic analysis to the public policy debate on the preservation of cultural property a multidisciplinary team of physical scientists worked with social scientists to explore how societal economic and ethical considerations might be integrated with technological options to lead to informed policy decisions Recognizing that economic analyses must rest on firm technical data and sound conservation options the state of our knowledge of mechanisms and rates of damage the diagnosis of condition and the evaluation of treatment options were subjected to critical review special attention was given to the identification of promising innovative areas of research This volume represents an important first step in rationalizing the decision making process for the setting of public policy in the preservation of our architectural heritage It will be of interest not only to those actively engaged in research and conservation on stone structures but also to those concerned with urban planning public policy economic analysis and environmental standards setting Goal of this Dahlem Workshop to identify critical gaps in our knowledge of the deterioration mechanisms for treated and untreated historically important stone to suggest innovative approaches to the study of deterioration mechanisms and novel remedial measures for treated and untreated historically important stone and to address the socioeconomic factors that determine preservation actions for our architectural heritage      Structural Studies, Repairs and Maintenance of Heritage Architecture XIII C. A. Brebbia,2013-06-25 Architectural heritage is now recognised to be of great importance to the historical identity In order to take care of the architectural heritage of a region town or nation now recognised as of great importance to their historical identity we need to share experiences and knowledge regarding heritage preservation in many parts of the world Covering advances in this field presented at the thirteenth in a series of now biennial conferences that began in 1989 this book covers such topics as Heritage architecture and historical aspects Learning from the past Surveying and monitoring
