Interdisciplinary Perspectives on COVID-19 and the Caribbean, Volume 2 Sherma Roberts, Halimah A. F. DeShong, Wendy C. Grenade, Dwayne Devonish, 2023-09-06 Caribbean countries have had to navigate multiple crises which have tested their collective resolve through time. In this regard, the region's landscape has been shaped by an interplay of vulnerability and resilience which has brought to the fore possibilities and contradictions. It is within this context that the effects of the COVID 19 pandemic must be considered. *Interdisciplinary Perspectives on COVID 19 and the Caribbean Volume 2* Society Education and Human Behaviour provides a comprehensive multi and interdisciplinary assessment of the impact of the COVID 19 pandemic using the Caribbean as the site of enquiry. The edited collection mobilises critical perspectives brought to bear on research produced within and beyond the boundaries and boundedness of conventional academic disciplinary divides in response to the multi dimensional crises of our time. This volume is divided into four parts consisting of twenty three chapters and weaves together four broad thematic strands: COVID 19 and Caribbean Society, COVID 19 Religion and Rights, Psycho social Impacts of COVID 19 and Education Innovation and Technology. Authors working within and across the human social physical and life sciences consider the myriad effects of the health crisis in the region, interrogating these experiences from the granular to macro level utilising inter and multidisciplinary lenses. Collectively the chapters which constitute Volume II expose the fault lines in Caribbean societies which are deeply rooted in the region's history and delineate the precise ways in which the pandemic has transformed lives and livelihoods in the region. The culmination of this collection offers a reimagining of our Caribbean contemporary futures in the hope of finding home grown solutions, avenues and possibilities.
