

## A) GETTING STARTED – ABOUT MAPINFO (1)

### 1) What is Mapinfo?

- A Geographical Information System (GIS) Software Package
- Its concept is based on Windows Icon Menu Pointer (WIMP) & graphical User Interface (GUI)
- Allows user to import geographically reference data & creating thematic maps for different variables

### 2) Basic GIS

- GIS is a powerful set of tools for collecting, storing, retrieving, transforming & displaying spatial data from the real world
- GIS maybe raster i.e a continuous surface stored as cells or **vector stored as discrete point, line or polygon objects with attribute**
- Mapinfo is vector based GIS

### 3) Vector Based Mapinfo

- Points : **Single Data Locations with X & Y Coordinates**
- Lines : **Connections between two points**
- Polygons/Regions : **a closed area composed of points which are joined by lines**
- Attributes : **the text attached to any point, line or polygon entity**

*FAO Conservation Guide* ,1995      GIS David R. Green,2000-12-01 In a relatively short time Geographic Information Systems GIS have spread from being primarily a research tool to higher and subsequently secondary education and from the researcher to the user GIS A Sourcebook for Schools is an easily accessible guide to GIS at an elementary level and provides sufficient background in GIS to ensure a comprehensive working knowledge of the subject It is written specifically for schoolteachers looking to incorporate GIS into the secondary school curriculum and will be the essential textbook for all those wishing to gain an introduction to a working knowledge of GIS The book contains everything that a teacher wanting to implement GIS into the curriculum would need including glossary of terms explanation of the fundamentals definitions and further reading No other book will be quite as useful as this one      InfoWorld ,1994-09-19 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects      Geo Info Systems ,1997      **A Research Guide to Cartographic Resources** Eva H. Dodsworth,2018-09-22 The interdisciplinary uses of traditional cartographic resources and modern GIS tools allow for the analysis and discovery of information across a wide spectrum of fields A Research Guide to Cartographic Resources navigates the numerous American and Canadian cartographic resources available in print and online offering researchers academics and students with information on how to locate and access the large variety of resources new and old Dozens of different cartographic materials are highlighted and summarized along with lists of map libraries and geospatial centers and related professional associations A Research Guide to Cartographic Resources consists of 18 chapters two appendices and a detailed index that includes place names and libraries structured in a manner consistent with most reference guides including cartographic categories such as atlases dictionaries gazetteers handbooks maps plans GIS data and other related material Almost all of the resources listed in this guide are categorized by geography down to the county level making efficient work of the type of material required to meet the information needs of those interested in researching place specific cartographic related resources Additionally this guide will help those interested in not only developing a comprehensive collection in these subject areas but get an understanding of what materials are being collected and housed in specific map libraries geospatial centers and their related websites Of particular value are the sections that offer directories of cartographic and GIS libraries as well as comprehensive lists of geospatial datasets down to the county level This volume combines the traditional and historical collections of cartography with the modern applications of GIS based maps and geospatial datasets      *Inside MapInfo Professional* Angela Whitener,Larry Daniel,Paula Loree,1999 Inside MapInfo Professional is for desktop mapping neophytes who wish to quickly become proficient with MapInfo Professional software MapInfo Corporation s desktop mapping market leader The book is also a handy reference for the professional committed to optimizing software usage This edition is fully updated to the latest features and functions incorporated in version 5 x      **Crime Mapping Case Studies** Spencer

Chainey, Lisa Thompson, 2008-02-28 *Crime Mapping Case Studies From Research to Practice* provides a series of key examples from practice and research that demonstrate applications of crime mapping and its effect in many areas of policing and crime reduction. This book brings together case studies that show how crime mapping can be used for analysis intelligence development, monitoring performance and crime detection, and is written by practitioners for practitioners. Leading researchers in the field describe how crime mapping is developing and exposing analytical methodologies and critiquing current practices. Including global case studies that demonstrate a particular application, analytical technique or new theoretical concept, this text offers a truly global overview of this rapidly growing area of interest. Unlike other texts on this topic, this book identifies mistakes and challenges in this field of enquiry to aid the reader in understanding the basics of this technique, giving them the opportunity to learn further.

Madigan, 2017-12-06 This book provides a step by step process that focuses on how to develop practice and maintain emergency plans that reflect what must be done before, during and after a disaster in order to protect people and property. The communities who preplan and mitigate prior to any incident will be better prepared for emergency scenarios. This book will assist those with the tools to address all phases of emergency management. It covers everything from the social and environmental processes that generate hazards to vulnerability analysis, hazard mitigation, emergency response and disaster recovery.
