## GuestCall System with Coaster Papers

### Quick Setup Guide

### System Operation

#### Handing out the papers:

Give the guest a paper. Tell the guest that the paper will signal when they are needed. After the paper is finished sending the alert, it automatically goes back into standby mode, waiting for the next page. Papers can be given out directly from the charging base (they will "demo" page each time they are removed from the charging base) or you can simply store them in a basket and hand them out. A fully charged paper will function all day without being recharged. You can test a paper by inserting it into the charging base.

#### Paging the guest:

When the guest is needed, press the paper number on the transmitter keypad followed by the "SEND" key. For example, press "1-0000" and paper number 1 will signal.

#### Reprogramming your papers:

You must have a standalone transmitter to reprogram a JTECH digital paper. If your transmitter is integrated with a 2nd party software solution, you will need to use the JTS003 transmitter for this function. All programming commands are sent over the air and can only be programmed one paper at a time.

To change the number on a paper, follow the procedure below:

Once the paper is placed in the charger you only have 30 seconds to complete the process. If more than 30 seconds have elapsed, replace the paper on the charging base.

1. Ensure the charger is plugged in.
2. Place one paper at a time on the charging base.
3. From the transmitter, enter the 0-9 paper number, then press "SEND".
4. When the display says, "Enter Message", press "\*/#0000" followed by the 0-9 3 digit paper number. The display will show either a "\*" (over) or "E" (over limited).
5. Press "SEND" - The new paper number will be displayed.

For example: Changing paper 46 to paper 427

- Place 46 on the charger.
- From the transmitter, enter 6 and then press the "SEND" key.
- Press "\*/#427" (Note: 3 digit number is required) and then press the "SEND" key.
