Confrontation, Strategy and War Termination Christopher Tuck, 2016-05-23 At the heart of this book is the problem of war termination Britain won an almost unbroken string of tactical military victories during an undeclared war against the Republic of Indonesia in the 1960s yet it proved difficult to translate this into strategic success Using conflict termination theories this book argues that British strategy during Confrontation was both exemplary and flawed both of which need not be mutually exclusive The British experience in Indonesia represents an illuminating case study of the difficulties associated with strategy and the successful termination of conflicts The value of this book lies in two areas as a contribution to the literature on British counter insurgency operations and as a contribution to the debates on the problems of war termination in the context of strategic thought **Guide to Indian Periodical Literature**, 1975 New Wars Scott Nicholas Romaniuk, 2013 Al Qaeda's deadly assaults against the American homeland on September 11 2001 deeply altered regional security architectures the world over Religious extremists responsible for having coordinated and implemented the 9/11 attacks have brought state and non state actors to radically reconsider traditional concepts of security including responses and the need for tactical and strategic preemption in the face of growing conventional and asymmetric threats to

communities at home and abroad Drawing upon critical new research the analyses presented by the contributors of this volume challenge and even shatter previously held ideas about domestic and international terrorism and state sanctioned violence They shed light upon new conceptions of security as well as the need for actors to address existing and emerging cultures of fear and critical susceptibilities in the face of wanton violence and security of the state in the 21st century

Malaysia's Defeat of Armed Communism Ong Weichong,2014-10-03 The Malayan Communist Party s MCP decisive defeat in 1960 led many academics and Counterinsurgency COIN experts to overlook the resurrection of its armed struggle in 1968 Most scholars continue to regard the so called Second Emergency in Malaysia 1968 1989 as a non event and most of the recently published work on the MCP tends to focus on the earlier Malayan Emergency 1948 1960 This book looks at the Second Emergency through recently released archival material from the National Archives in London the National Australian Archives and the Australian War Memorial as well as interviews with military and diplomatic officers from the UK and Thailand It presents the first serious strategic and operational study of the Second Emergency and analyses three areas of historical significance the CPM s strategy for armed struggle in the Second Emergency the actual effectiveness of the CPM s subversive propaganda on its target population and most importantly the counterinsurgency COIN response and strategy of the Malaysian state and to a lesser extent the counter subversion strategy of Singapore in the post colonial era
