the Twentieth Century Ugo Spirito,2021-10-25 Ugo Spirito s *Memoirs of the Twentieth Century* is the intellectual
autobiography of one of the most original and anticonformist contemporary Italian philosophers In it Spirito makes an
evaluation of his long career spanning from the decade of the 20 s to that of the 70 s of the twentieth century as a thinker
who was never satisfied with any theoretical or philosophical system while constantly aiming at finding a definitive truth the
incontrovertible or absolute The various stages of his search deal with different philosophical and scientific systems from
positivism to actual idealism from problematicism to omnicentrism from scientism to neoproblematicism revealing at the
same time an inherent antinomic procedure that does not permit him to take any truth for granted At the end of his life
Spirito realized that he could only be sure of his present state of unawareness thus challenging the validity of his lifelong
investigative activity Man cannot know himself Spirito wrote Confronted with the manifestations of life and universe he could
not help but feel a sense of surprise and astonishment Throughout his life he was only a spectator of his destiny not the
conscious creator of it as he believed in the early stage of his career Consequently he reached a position of negating any
value system bordering on skepticism and nihilism Within this context he offered a post modern interpretation of life This
interpretation was also Spirito s conclusion and as such implied a rethinking about other faiths both political and ideological
that for more than fifty years would develop parallel to philosophical faith Consequently he revisited some of the most
important philosophical and political personalities who interpreted or materialized those faiths from Benedetto Croce to
Gentile from Benito Mussolini to Giovanni Bottai from Togliatti to Pope Paul VI Spirito was not a thinker who remained
secluded within the ivory tower of pure investigation but in an effort to modify society according to principle of the
identification of philosophy with life he tried to act upon it by following thoughts with action *Memoirs of the Twentieth*
Century is divided in two parts one purely autobiographical and theoretical and the other more historical where Spirito
narrates his relationship with the above mentioned personalities as a way of testing the validity of his beliefs Indeed one can
perceive his moment of adherence to each of the different approaches expounded only to subsequently detach himself from
them For the English speaking reader the second part will appear more interesting and poignant since Spirito s involvement
with history foretells the intellectual fate of a nation *Memoirs of the Twentieth Century* is a reflection on life in which
personal history serves as a vehicle for judgment upon an entire century *Resources in Education* ,1988 Catalogue
