Maths Investigator Mi3 Casebook:

Maths Investigator Caroline Clissold, 2007-05 Maths Investigator is a secret spy agency whose mission is to make maths fun and exciting. The series has been extensively trialled and developed to offer schools a fresh and exciting way to combine the content and structure of the 2006 Mathematics Framework with the principles of the Primary Strategy Excellence and Enjoyment guidance to raise standards whilst making learning fun. The Maths Investigator approach focuses on developing the key skills of problem solving, speaking and listening and using and applying maths. It uses the engaging spy context to integrate maths into problem solving and give pupils a clear purpose for learning. The Casebook uses photographic visual clues to bring maths to life. Pupils interpret the information from messages on the Interactive CD alongside the Casebook clues to solve each case through logical thinking about the overall problem. The investigative approach promotes discussion and collaborative group work while the fun spy themes and real life contexts embed maths into problem solving and offer opportunities for cross curricular links.

The series has been extensively trialled and developed to offer schools a fresh and exciting way to combine the content and structure of the 2006 Mathematics Framework with the principles of the Primary Strategy Excellence and Enjoyment guidance to raise standards whilst making learning fun. The Maths Investigator approach focuses on developing the key skills of problem solving, speaking and listening and using and applying maths. It uses the engaging spy context and fully integrated software components to embed maths into problem solving and give pupils a clear purpose for learning. The Teacher's Guide provides clear flexible lesson plans to support both confident mathematicians and less experienced teachers. With straightforward planning based on the 2006 Framework and creative teaching ideas it helps raise standards as well as making learning fun. Unique planning mind maps provide at a glance overviews of teaching throughout each unit making clear links between core areas of maths to ensure blocks of work are relevant and meaningful. Extra support and challenge activities make differentiation easy whilst assessment for learning questions help identify and address misconceptions. For flexibility Teacher's Guide units are packaged in topic packs. Each pack contains three two week units of work including access to the associated Interactive CD.
