under such hot conditions risk Research thrust will also be given on fully automated furnaces modeling simulation during commissioning A case study and research on live projects will be carried out towards a fully automated furnace for experimentation of the study and research work done for validation An essential task of the study and research work is to find out the feasibility for development in the present scenario and implementation of the same practices for the safety of personnel green environment by the complete combustion of fuel and enhance furnace efficiency minimizes cost **The Surface Irrigation Manual** Charles Burt,1995 **Power** ,1929 *Gas Power* ,1917 *Pipes and pipelines manual and directory* ,1962 **Lyons' Valve Designer's Handbook** Jerry L.
