Digital Life Together David I. Smith, Kara Sevensma, Marjorie Terpstra, Steven McMullen, 2020-05-05 Digital technologies loom large in the experience of today's students. However, parents, teachers, and school leaders have only started to take stock of the ramifications for teaching, learning, and faith. Based on a three-year in-depth study of Christian schools, *Digital Life Together* walks educators, school leaders, and parents through some of the big ideas that are hidden in our technology habits, going beyond general arguments for or against digital devices to address the nuanced realities of Christian education in a twenty-first-century context.

University Teaching in Focus Lynne Hunt, Denise

Chalmers, 2021-06-21 The second edition of *University Teaching in Focus* distills the knowledge and insights of internationally acclaimed experts in university teaching. It empowers university teachers and contributes to their career success by developing their teaching skills, strategies, and knowledge. Written in a clear and accessible style, it provides a sharp focus on student learning through the lens of four sections: Focus on subject and curriculum design, Focus on subject teaching and learning, Focus on students, and Focus on your career. Each of the 15 chapters targets a key teaching and learning issue, referencing seminal works, current resources, and practical applications using real-world cases. The 'Your thoughts' sections encourage reflection and offer opportunities to adapt international evidence about best practice to local contexts and disciplines. This edition will be a key resource for foundational teaching development programs in higher education institutions or as a self-help manual by early-career and experienced teachers who wish to enhance their students' learning.
