huge international success and that's exactly what it's become. Now a familiar sight on the streets and boulevards of the world, the MX-5 is owned by real enthusiasts, the kind of people who will want to have hands-on involvement with the maintenance and repair of their prized possession. For those enthusiasts, here is what we believe to be the best, easiest to use workshop manual in the world. Author Rod Grainger set out to create a new kind of owner's workshop manual, friendly, easy to understand, easy to use, and yet more detailed than any other manual currently available. Two years later, the Mazda MX-5 Miata 1.6 Enthusiast's Workshop Manual was the result. Rod and fellow enthusiasts Pete and Judith stripped down an MX-5 in an ordinary domestic garage using ordinary tools, and in the process took over 1,500 step-by-step photographs. The result of all this work is a superbly detailed text which passes on to the reader every detail of important jobs, including how problems can be overcome without resorting to special tools. This manual even tells the reader the size of nuts and bolts so they can start work with the right tools, and all clearances and torque values are given in the text as the reader needs them. At paragraph level, a unique symbol system provides cross-references or tells the reader that there are helpful associated photos, drawings, and tables. The dreaded words 'reassembly' are a reversal of the dismantling procedure, and every task, from changing a bulb to rebuilding the gearbox, is described in full. Besides detailed coverage of maintenance and repairs, this manual includes advice on rustproofing, cosmetic tuning, and mechanical tuning. Rod's manual was prepared with the assistance of Mazda, and it applies to all 1.6-litre models built between 1989 and 1995. Most of the manual is relevant to later 1.6-litre models too.

Mazda MX-5 Miata 1.6 Enthusiast's Workshop Manual Rod Grainger, 2017. Superbly detailed text with over 1,500 photographs covering every detail of important jobs without resorting to special tools.
