

Basic MLA Format Guidelines

Margins: 1 inch on all sides (top, bottom, left, right)

Font Size and Type: 12 pt. font size, Times New Roman or other legible font

Spacing: Double-space throughout the paper (Includes title page, abstract, body, and references)

Page Numbers: Create a header in the upper right-hand corner, ½ inch from the top and flush with the right margin that includes your last name, followed by a space and then consecutive page numbers (1,2,3,4). (If your teacher requests you to leave off the page number on the front page, follow their instructions.)

Paragraph Indentation: Indent the first line of every paragraph by ½ inch (Use Tab key on keyboard)

Title Page: None, unless otherwise instructed by professor.

Personal Information for First Page: One inch from the top in the upper left-hand corner of the first page in this order: your name, your instructor's name, class course number, and the date. Each goes on a separate line and is double-spaced.

Paper Title: Follows the personal information section and is placed in the center of the page. Do not underline, place your title in quotation marks, add a period at the end of your title or write the title completely in capital letters! Do not use italics except for official titles of published works.

Endnotes: Include endnotes on a separate page before your Works Cited page and add a title in the center entitled Notes.

Works Cited Page:

- Begin the Works Cited list on a new page.
- Label the page Works Cited and center it at the top of the page. Do not italicize, underline or put quotation marks around the words *Works Cited*.
- Double space all citations. Do not add extra spaces between entries.
- Indent the second and subsequent lines of each citation five spaces by using the Tab key so that you create a hanging indent.
- List all works cited in alphabetical order by the first word in the citation.
- **You no longer have to include URLs unless your professor requests them.**
