Karpinski, 2007-01-01 **Manual For Ear Training and Sight Singing** Gary Karpinski, 2006-06 **Manual for Ear Training and Sight Singing CD.** Gary S. Karpinsky, **Journal of Music Theory Pedagogy** ,2011 **Music's Immanent Future** Sally Macarthur, Judy Lochhead, Jennifer Shaw, 2016-05-12 The conversations generated by the chapters in Music's Immanent Future grapple with some of music's paradoxes that music of the Western art canon is viewed as timeless and universal while other kinds of music are seen as transitory and ephemeral that in order to make sense of music we need descriptive language that to open up the new in music we need to revisit the old that to arrive at a figuration of music itself we need to posit its starting point in noise that in order to justify our creative compositional works as research we need to find critical languages and theoretical frameworks with which to discuss them or that despite being an auditory system we are compelled to resort to the visual metaphor as a way of thinking about musical sounds Drawn to musical sound as a powerful form of non verbal communication the authors include musicologists philosophers music theorists ethnomusicologists and composers The chapters in this volume investigate and ask fundamental questions about how we think converse write about compose listen to and analyse music The work is informed by the philosophy primarily of Gilles Deleuze and Felix Guattari and secondarily of Michel Foucault Julia Kristeva and Jean Luc Nancy The chapters cover a wide range of topics focused on twentieth and twenty first century musics covering popular musics art music acousmatic music and electro acoustic musics and including music analysis music's

ontology the noise music dichotomy intertextuality and music listening ethnography and the current state of music studies The authors discuss their philosophical perspectives and methodologies of practice led research including their own creative work as a form of research Music s Immanent Future brings together empirical cultural philosophical and creative approaches that will be of interest to musicologists composers music analysts and music philosophers
