Jurassic Park – General Directions and Contents

Let the students know that they're going to watch Jurassic Park. The movie is about a wealthy entrepreneur who secretly creates a theme park featuring living dinosaurs drawn from prehistoric DNA. Before opening the attraction to the public, he invites a top paleontologist, a paleobotanist, a mathematician/theorist, and his two eager grandchildren to experience the park. However, during the ride, the park's security system breaks down and the prehistoric creatures break out.

PART 1 – Comprehension questions

- 30 questions in chronological order with answer key included.

PART 2 – Creativity

- In the first section, students to design a new enclosure for one of the dinosaurs and label important features with explanations.
- The second section is writing a recount about visiting the park as a lucky guest who gets to go before it reopens.
- The third part is creating a new species of dinosaur by mixing DNA. Students then complete the profile

Marking idea for the comprehension questions

When the students have finished the questions, they swap their work with their friends to mark. We go through together as a class, taking it in turns to ask and answer questions. Students can also check grammar and spelling if more advanced, and then rechecked by the teacher.

Enjoy the questions and the movie!
