Manual Cargo Loading On 737:

Guidebook for Air Cargo Facility Planning and Development Mike Maynard, 2015 The guidebook presents a broad discussion of the various issues that must be addressed in planning air cargo facilities. It describes tools and techniques for sizing facilities including data and updated metrics necessary to forecast future facility requirements as a function of changing market and economic conditions. The procedures offered support airport operators in crafting effective business plans and development decisions that meet the industry's current and future technological, operational and security challenges in a cost effective, efficient and environmentally sensitive manner. **Highway Safety Literature**, 1979
