Libraries and Information Services Towards the Attainment of the UN Millennium Development Goals Benson Njobvu,Sjoerd Koopman (editor.),2008 The United Nations Millenium declarations of 2002 set eight Millenium Development Goals MDGs to be achieved by 2015 The high poverty levels in most African countries make many aware that it is no longer up to the governments alone to find ways of abetting it but that other organizations need to join the fight Libraries are well placed to contribute to the development process in supporting it by providing relevant up to date and reliable information The papers presented in this publication address the question how African libraries and information professionals seek to make themselves relevant to national development All of them focus on how libraries and information
