

Makerere University Private Admissions 2015 2016

**Great Britain. Parliament. House of
Commons**

Makerere University Private Admissions 2015 2016:

Intra-Africa Student Mobility in Higher Education Chika Trevor Sehoole, Jenny J. Lee, 2022-01-01 This book examines student mobility within Africa International student mobility is among the central activities of higher education internationalization As the number of international students increase so do the destinations in both number and geographic diversity Historically international student mobility has followed South North and North North patterns However recent literature show the growth in North South and South South patterns of student mobility There has also been a rise in regional mobility In what is referred to in the book as intra Africa mobility the books explores and analyzes the patterns of intra Africa mobility based on seven African countries South Africa Kenya Uganda Nigeria Ghana Senegal and Egypt The editors and contributors address three central research questions Why did the students choose the country they are studying in Why did they choose the institution they are studying in What are their academic and social experiences in these countries and their respective institutions This book is the first comprehensive exploration of intra Africa student mobility in a field that traditionally centers on the Global North

Research Universities in Africa Cloete, Nico, Bunting, Ian, 2018-11-09 From the early 2000s a new discourse emerged in Africa and the international donor community that higher education was important for development in Africa Within this zeitgeist of converging interests a range of agencies agreed that a different collaborative approach to linking higher education to development was necessary This led to the establishment of the Higher Education Research and Advocacy Network in Africa Herana to concentrate on research and advocacy about the possible role and contribution of universities to development in Africa This book is the final publication to emerge from the Herana project The project has also published more than 100 articles chapters reports manuals and datasets and many presentations have been delivered to share insights gained from the work done by Herana Given its prolific dissemination it seems reasonable to ask whether this fourth and final publication will offer the reader anything new This book is certainly different from previous publications in several respects First it is the only book to include an analysis of eight African universities based on the full 15 years of empirical data collected by the project Second previous books and reports were published mid project This book has benefited from an extended gestation period allowing the authors and contributors to reflect on the project without the distractions associated with managing and participating in a large scale project For the first time some of those who have been involved in Herana since its inception have had the opportunity to at least make an attempt to see part of the wood for the trees Different does not necessarily mean new An emphasis on the newness of the data and perspectives presented in this book is important because it shows that it is more than a historical record of a donor funded project Rather each chapter in this book brings to a lesser or greater extent something new to our understanding of universities research and development in Africa

American Higher Education in a Global Context Cristina González, 2022-02-14 American Higher Education in a Global Context Historical Perspectives describes the current state of universities on each continent providing a

comprehensive analysis of the numerous factors that have affected higher education systems around the world This book studies higher education from its emergence in antiquity to the establishment of the American research university model and its adoption around the globe through the current Covid 19 pandemic and concomitant economic and political crisis The author pays special attention to the shortcomings of the neoliberal trend of the last four decades which increased social stratification at institutions of higher learning Calling for an expansion of access to tertiary education and in particular to research universities this book examines the competition between China and the United States in the field of higher education stressing the importance of academic freedom without which there can be no true academic excellence

Student Politics in Africa Luescher, Thierry M.,Klemencic, Manja,2016-05-12 The second volume of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with interest in higher education and student politics in Africa Most authors are early career academics who teach and conduct research in universities across the continent and who came together for a research project and related workshops and a symposium on student representation in African higher education governance The book includes theoretical chapters on student organising student activism and representation chapters on historical and current developments in student politics in Anglophone and Francophone Africa and in depth case studies on student representation and activism in a cross section of universities and countries The book provides a unique resource for academics university leaders and student affairs professionals as well as student leaders and policy makers in Africa and elsewhere

Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa Peter Darvas,Shang Gao,Yijun Shen,Bilal Bawany,2017-11-15 Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region s wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction Instead patterns of access to tertiary education have generally reinforced and reproduced social inequality instead of eroding its pernicious social and economic effects This report aims to inform an improved understanding of equity in tertiary enrollment in Sub Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness In our survey of the evidence we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems In order to achieve these objectives the report collects generates and analyzes empirical evidence on patterns of equity examines the underlying

causes of inequity and evaluates government policies for addressing inequity **Parliamentary Debates** Great Britain. Parliament. House of Commons,1954 Contains the 4th session of the 28th Parliament through the session of the Parliament

Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons,1954 Contains the 4th session of the 28th Parliament through the session of the Parliament [Yearbook of International Organizations 2014-2015 \(Volume 3\)](#)
