Public Health, Disease and Development in Africa Ezekiel Kalipeni, Juliet Iwelunmor, Diana S. Grigsby-Toussaint, Imelda K. Moise, 2018-06-14 The

closure of the Millennium Development Goals MDGs in 2015 prompted the need for a book of this kind. An interdisciplinary group of global health scholars contribute to the understanding of the emerging and fast growing problem of the dual burden of communicable and non communicable diseases NCDs in Africa. This book is timely as the international community has moved from the MDGs to adopt the Sustainable Development Goals SDGs as the blueprint for a new human development agenda. Contributions and case studies are situated in the revised Epidemiologic and Nutrition Transition Model to capture the current situation referencing communicable and NCDs on the African continent. The case studies encapsulated aim to help minimize negative health outcomes and improve population health well being and equity in the future. This book will be significant in policy circles to assist international organizations governments and United Nations agencies. It aims to chart the future for health in Africa in light of recently adopted SDGs. This book is also a useful complementary reader for global public health related courses.

Universities in the Knowledge Society Timo Aarrevaara, Martin Finkelstein, Glen A. Jones, Jisun Jung, 2021-09-28 Springer is proud to announce that *Universities in the Knowledge Society* has received the ASHE CIHE award for Significant Research on International Higher Education. Congratulations to Timo Aarrevaara, Martin Finkelstein, Glen A. Jones, Jisun Jung and all contributors. This book explores the complex multi faceted relationships between national research and innovation systems and higher education. The transition towards knowledge societies economies is repositioning the role of the university and transforming the academic profession. The volume provides a foundational introduction to the concepts of knowledge society and knowledge economy and these concepts ground the detailed case studies of eighteen systems located across five continents. Each case study was written by a leading expert in that jurisdiction and provides a critical analysis of the research and development infrastructure, the role of universities and the implications for the academic profession. The book describes how nations in various geographic regions and at various stages of economic maturity are restructuring their university systems to adapt to the new imperatives and provides a cross case analysis identifying common themes and distinctive features. In telling the story of higher education's ongoing global metamorphosis the contributing authors place current developments in the context of the university's historic evolution, survey the changing metrics that national governments are adopting to measure university performance and describe a new international project, the Academic Profession in the Knowledge based Society APiKS that involved a common survey of academics in more than twenty countries to take the pulse of developments on the ground while documenting the challenges confronting knowledge workers in the new economy.
