Carrasco Ochoa, 2004-11-18 First of all we want to congratulate two new research communities from Mexico and Brazil that have recently joined the Iberoamerican community and the International Association for Pattern Recognition We believe that the series of congresses that started as the Taller Iberoamericano de Reconocimiento de Patrones TIARP and later became the Iberoamerican Congress on Pattern Recognition CIARP has contributed to these group consolidation efforts We hope that in the near future all the Iberoamerican countries will have their own groups and associations to promote our areas of interest and that these congresses will serve as the forum for scientific research exchange sharing of expertise and new knowledge and establishing contacts that improve cooperation between research groups in pattern recognition and related areas CIARP 2004 9th Iberoamerican Congress on Pattern Recognition was the

ninth in a series of pioneering congresses on pattern recognition in the Iberoamerican community As in the previous year CIARP 2004 also included worldwide participation It took place in Puebla Mexico The aim of the congress was to promote and disseminate ongoing research and mathematical methods for pattern recognition image analysis and applications in such diverse areas as computer vision robotics industry health entertainment space exploration telecommunications data mining document analysis and natural language processing and recognition to name a few
